## Farm Bureau Is 21 Years Old

### Issues Anniversary Edition of 'Co-operator' Giving Historic Facts

The first of April, members of the Cook County Farm Bureau will be receiving a special edition of the Cooperator which is the official organ of the Cook County Farm Bureau, celebrating the 21st year of Farm Bureau in this county.

This is an edition three times the size of the ordinary Cooperator and is a historical issue giving many facts and figures about the past of the Cook County Farm Bureau. One of the interesting sections of the paper is the publication of a picture of the organization committee taken in a Chicago hotel in February, 1920. This committee is the one that decided to proceed with the organization of a Farm Bureau in this county after all the adjoining counties in this section of the state had farm bureaus. The Farm Bureau outgrowth came from a demand by the University of Illinois that before a farm adviser would be located in any county a voluntary organization of farmers must be set up to contract for assuming certain responsibilities. DeKalb and Kankakee counties were the first two counties in the state to start such organizations. Today every county in Illinois is serviced by a Farm Bureau.

Although late in getting a start under the assumption that a farm bureau could not exist in Cook county, this organization has grown to be the second largest in the United States. At one time the membership was so low that it was considered wise to cut the county up and apportion it out to the adjoining counties. However, from this low level of about 300 members Cook county has grown until at the last meeting of the American Farm Bureau Federation this county was presented with a bronze gong signifying that it was the largest Farm Bureau in the twelve north central states.

Throughout this historical publication of the Cooperator, there are tables giving the officers of the farm bureau, the directors and their terms of service and the Farm Advisers who have served the county. From the minutes of the minute books a running list of motions, activities and other items of interest have been gleaned year by year from 1920 to 1941. Among these we find discussions that took place with reference to securing the experiment station at Des Plaines, of T.B. testing of cattle, all of which is in the memory of practically every farmer in the county.

The tax work that the Farm Bureau has been engaged in for the past two quadrennial assessments is described as one of fourteen services that have been outstanding to the farmers of this county. Some of the other outstanding services have been the organization of the Lake-Cook Farm Supply Company, which annually merchandises many carloads of farm supplies to the farmers of this county. Another service of major imoprtance is the auto insurance company which has provided farmers with auto insurance at cost. Life insurance has had an important part in the work of the Farm Bureau. One interesting feature is the publication of the picture of three girls who were elected beauty queens on December 17, 1931. These girls were Miss Laura Schoenbeck (now Mrs. Albert Meyer), Miss Laurine Hewson and Miss Ella Kuiken. Other services of the Farm Bureau come under the head of legislation, agricultural extension, 4-H club, AAA, etc.

Letters of commendation to the good work done by the Farm Bureau have been received and published in the current issue from Ed. O'Neil, president of the American Farm Bureau Federation, Earl Smith, president of the Illinois Agricultural Association; Howard Leonard, director of agriculture for the state of Illinois, and former president of the I.A.A., J. D. Bilsborrow of the University of Illinois under whose direction Cook county was organized into a Farm Bureau, and Mr. J. C. Spitler, Associate Director of Extension for Illinois.

Farm Bureau members who receive the April issue of the Cooperator will doubtlessly want to put it away and keep it as a reference history for the first 21 years of this organization.

### 4-H Federation Meeting At Arlington Heights

The 4-H Club Federation of northern Cook County, a group composed of all 4-H club members 15 years of age and over, will hold its first meeting of 1941 at the farm bureau office in Arlington Heights, Friday evening, April 4, according to Charles N. Glover, assistant farm adviser.

The program will consist mainly of movies with sound presented by the Cook County Public Health Unit.

In these meetings the 4-H club members have an opportunity to make suggestions regarding 4-H club activities for the county as well as assist in carrying out these activities.

## *Final Rites Held For G. Schneberger*

Gottlieb Schneberger, Arlington Heights business man, was laid to rest in a mausoleum at Acacia Park cemetery by his brother Masons Monday afternoon. Funeral services had been held at the Lauterburg & Oehler chapel, with Rev. Kossack, friend and brother Mason, officiating. Arlington Heights lodge No. 1192, A. F. & A. M., assisted by members of Palatine Lodge No. 314 gave the Masonic burial rites. Mr. Schneberger was a past master of both lodges and also a past High Priest of Palatine chapter No. 206 R. A. M.

Death came to Mr. Schneberger Friday, March 21, at Billings Memorial hospital. He was 72 years, 11 months, 14 days old.

The life of Mr. Schneberger is a story of a man to whom hard work and determination to achieve success were imbued in his blood. Born in Chicago April 7, 1868, he entered the meat industry, work that required early and long hours. He won recognition and filled various positions of responsibility in the wholesale packing trade. He came to Arlington Heights with his family in 1902, continuing his work in the city, spending his spare time in developing his home which included the growing of a fruit orchard. It was against his nature to waste improvement opportunities.

Deceased entered the business life of Arlington Heghts in 1916 as a silent partner in the present firm of Arlington Elevator & Coal Co. After his retirement from Chicago employment in 1922 he became active in the building material and coal firm. He was one of the organizers of the first business men's organization in Arlington, and for many years took an active interest in affairs of his community.

During recent years, as his health began to fail, he left the management of his business to others, preferring to spend his remaining days in the quiet of his own home.

Mrs. Schneberger died October 10, 1929. There remain one son, George F., four daughters, Mrs. Carrie Hardtke, Emily, Mrs. Alice Siemro and Mrs. Mildred Sherrill and ten grandchildren.

## Park Board Election Is Next Tuesday

### Has Its Own Contest; Three Candidates for One Office

The township election next Tuesday overshadows the park board contest, but the latter election should not be overlooked. There is one office for a full term to be filled and there are three candidates. George Glow is a candidate to succeed himself. The other candidates are Elmer Karstens and Paul E. Patrick.

Mr. Glow is a resident of Scarsdale, is chairman of the finance committee of the park board and has become very much interested in recreational work. A story written by an admirer of Mr. Glow appears on page three of this section.

Mr. Karstens in his candidacy points to the fact that his duties as a police officer take him to the park almost every day during the swimming season. He thinks that as a park board member, he will have added authority and increased opportunity to serve the general public. As a police officer Mr. Karstens has considerable contact with the younger generation and enjoys that portion of his work.

Mr. Patrick has been an active member of the Arlington Heights Garden club for ten years and is very much interested in the beautification of grounds, both public and private. In private life he is supervising engineer for the Bowman Dairy Co., and resides at 319 West Hawthorne.

Marion Hogate is unopposed for the position to fill a vacancy on the board. He was appointed to his present position, on the board, but with the coming election, the law requires that a vote be recorded on the vacancy.

### Mayor Flentie Resigns From Fire Department

Mayor J. D. Flentie who has been a member of the Arlington Heights fire department many years, resigned at the last meeting of that organization. Forty years ago Mr. Flentie was only 19 years of age when he originally joined the department Oct, 1902, and with the exception of two years, has been a member since that time.

The department will honor him with a service badge at a smoker to be held in April. Mr. Flentie was foreman of the old hand pumper in the days of the bucket brigade. ### 9th District Registers Unemployed Legionnaires For Defense Program

In order to assist in the employment phase of National Defense, the 9th District American Legion Department of Illinois has undertaken to register all employed Legionnaires and all other unemployed World War Veterans. In addition all unemployed Legion Auxiliary members and eligibles to the Legion Auxiliary, will be registered.

This is being done to ascertain where these registrants can be reemployed to the best interests of National Defense and also to find where these people may secure opportunities to enable them to support themselves and their families at an American standard of living.

Lloyd Cunningham, 9th District Commander, feels that there will be a good response from those wishing to register and states that: "employers will welcome this movement because it will enable them to secure patriotic American citizens who are dependable, loyal and able to accept their responsibilities to the fullest extent." This feeling is shared by Mrs. Eda Zimmerman, Director, 9th District American Legion Auxiliary. Mrs. Zimmerman has promised the cooperation of every unit of the American Legion Auxiliary in the 9th District not only in assisting in registering the men and women applying for this employment aid but also promises the help of the Auxiliary members in seeking places of employment for the registrants.

If you wish to avail yourself of this servcie you are invited to register at the Legion Post in your own community. A notice will be posted at each Post Headquarters stating the hours at which registrations will be taken. If you are unable to appear at your neighborhood Post Headquarters at the hours so posted, call at the 9th District Employment Office, 5459 Belmont Avenuue, Chicago, which is in charge of Dr. George C. ## Wheeling Center To Elect New School Board

The school government of Wheeling Center, which includes Prospect Heights, will be changed from a district organization to that of a board of education of six members and a president after the school election to be held Feb. 12. The polls will be opened from noon until eight o'clock.

Nominating petitions have been filed for the seven offices as follows:

For President, William G. Lancaster, Jr.; for members (six to be elected), Edward F. Mueller, Frank J. Raupp, Homer C. Torreyson, James M. Nielsen, Carl K. Stehman, Stephen J. Schramek.

School district 23 is one of the fastest growing schools in northwest Cook county. The present school house of two class rooms was built in 1938, and has only been in use since March, 1939. The building is attractive and convenient and with the cooperation of the PTA many conveniences have been installed. Health and dental programs have been sponsored this year.

The members of the present school board are Wm. G. Lancaster, Jr., president; Edward F. Mueller, clerk and Frank J. Raupp, member. Recognizing the growing interest of Prospect Heights in school affairs, the three members of the school board several months ago appointed an advisory committee. In furtherance of this program, a petition was presented to the board asking the formation of a board of education of six members and a president.

The school board was glad to accept the petition as its members realized that the larger school program would be better served with a larger school board in which the people of Prospect Heights would be able to have larger representation. There are six positions to be filled. All of the present members are candidates. Three of the new men are residents of Prospect Heights. The fourth, S. J. Schramek, lives on Willow road. It is a well balanced board in which all parts of the school district have representatives. No opposing candidates have filed petitions.

## Fire Claims Life of Five Year Old Boy

Fire claimed the life of Ronald Buckholz, 5 year old son of Mr. and Mrs. LaVerne Buckholz, when a conflagration swept their home to ruins in Edgewood, near Bensenville, last Friday. The child, ill with the measles, had been left at home in bed by his mother who had gone to a nearby store to do some shopping.

The rural fire department of Bensenville responded quickly when the alarm was given but arrived to find the home razed. The child's charred body was extricated from the debris.

The origin of the fire could not be definitely ascertained by the coroner and the sheriff's investigators who visited the scene of the tragedy. It is thought that it might have started from a defective oil stove.

The fire was first observed by the mother on her return from her shopping trip.

A verdict of accidental death was returned by a coroner's jury. The child is believed to have been first overcome by smoke and then burned to death.

## *Busy Fingers Provide Clothing for Red Cross*

The whir of sewing machines and the clickety-clack of knitting needles reverberate semi-weekly from the local field house and daily from many local homes as scores of busy fingers fashion wearing apparel for the American Red Cross to send to Britain, where it is distributed to refugees in Ireland, unoccupied France, Spain, or any others in countries not under the control of the Nazis. Residents of those countries in "the new order of Europe" are denied such help since the Nazi government has refused all aid offered by the American Red Cross.

Seven hundred and forty-eight garments have been completed since January 1, by the local Red Cross production unit under the direction of Mrs. Paul Carroll, general chairman; and Mrs. Albert Mors, assistant. Mrs. Henry St. John is the knitting instructor. The diversity of garments is apparent in the following list of apparel already sent to the national office: 90 baby blankets, 140 pairs baby bootees, 55 baby gowns, 25 baby bonnets, 25 baby dresses, 220 diapers, 5 children's air raid suits, 45 pairs boys' wool flannel overalls, 10 bathrobes, 30 hospital gowns, 15 operating gowns, 5 men's flannel shirts, 5 boys' flannel shirts, 4 pairs men's flannel pajamas, 15 heavy women's skirts; and hand knitted garments consisting of 15 scarfs, 15 women's coat sweaters, 6 men's coat sweaters, and 8 men's slipover sweaters.

Pins are awarded in recognition of 144 hours spent in the service of the Red Cross—30 credit hours are given for knitting a man's sweater and other garments are rated accordingly. Credit is given for doing sewing at home as well as at the field house. At present 51 women are knitting garments and 30 are sewing. More helpers could be used in each group. Hours at the field house are Monday, 12:00-3:30, and Thursday, 10:00-3:30. Materials for knitting and sewing are obtainable at any time other than these hours at the home of Mrs. Carroll.

**Card Party April 23**

Production materials for the local Red Cross unit have been supplied in the past by the workers and by private donations. Production has increased to such an extent, however, that the cost is now prohibitive. To meet these expenses twenty-five per cent of the profit of the Red Cross benefit card party Wednesday, April 23, will be allocated to the local unit.

The committee in charge of the party hopes to turn over $25 to the unit for such materials as thread, needles, pins, embroidery floss, tapes, binding materials, buttons, zippers, fasteners, and the upkeep of the sewing machines.

National Red Cross headquarters will receive the remainder of the profit from the April 23 card party. Those purchasing tickets can visualize their dollars going to the aid of refugees in the form of bandages, dressings, hospital supplies, surgical instruments, serums, antitoxins, and clothing — for the national office supplies the materials and yarns for the local production units.

**"Refugee" Defined**

A refugee, or one qualified to receive material aid, as defined by the Red Cross, is "any person forced to leave their customary mode of living." Temporary relief is given to all needing it, but those with adequate finances are expected to make restitution. Permanent aid is given to those without homes, clothing, food or resources until new homes and occupations are established.

Recently the Red Cross has added a service for boys in camp, and for their parents. If the parent of an enrollee is ill, a Red Cross representative will call at the home, inform the officer if the boy is needed there, and even provide money for transportation if necessary. Likewise, if a soldier is ill, the Red Cross will provide the same service.

## Farm Bureau Is 21 Years Old

### Issues Anniversary Edition of 'Co-operator' Giving Historic Facts

The first of April, members of the Cook County Farm Bureau will be receiving a special edition of the Cooperator which is the official organ of the Cook County Farm Bureau, celebrating the 21st year of Farm Bureau in this county.

This is an edition three times the size of the ordinary Cooperator and is a historical issue giving many facts and figures about the past of the Cook County Farm Bureau. One of the interesting sections of the paper is the publication of a picture of the organization committee taken in a Chicago hotel in February, 1920. This committee is the one that decided to proceed with the organization of a Farm Bureau in this county after all the adjoining counties in this section of the state had farm bureaus. The Farm Bureau outgrowth came from a demand by the University of Illinois that before a farm adviser would be located in any county a voluntary organization of farmers must be set up to contract for assuming certain responsibilities. DeKalb and Kankakee counties were the first two counties in the state to start such organizations. Today every county in Illinois is serviced by a Farm Bureau.

Although late in getting a start under the assumption that a farm bureau could not exist in Cook county, this organization has grown to be the second largest in the United States. At one time the membership was so low that it was considered wise to cut the county up and apportion it out to the adjoining counties. However, from this low level of about 300 members Cook county has grown until at the last meeting of the American Farm Bureau Federation this county was presented with a bronze gong signifying that it was the largest Farm Bureau in the twelve north central states.

Throughout this historical publication of the Cooperator, there are tables giving the officers of the farm bureau, the directors and their terms of service and the Farm Advisers who have served the county. From the minutes of the minute books a running list of motions, activities and other items of interest have been gleaned year by year from 1920 to 1941. Among these we find discussions that took place with reference to securing the experiment station at Des Plaines, of T.B. testing of cattle, all of which is in the memory of practically every farmer in the county.

The tax work that the Farm Bureau has been engaged in for the past two quadrennial assessments is described as one of fourteen services that have been outstanding to the farmers of this county. Some of the other outstanding services have been the organization of the Lake-Cook Farm Supply Company, which annually merchandises many carloads of farm supplies to the farmers of this county. Another service of major imoprtance is the auto insurance company which has provided farmers with auto insurance at cost. Life insurance has had an important part in the work of the Farm Bureau. One interesting feature is the publication of the picture of three girls who were elected beauty queens on December 17, 1931. These girls were Miss Laura Schoenbeck (now Mrs. Albert Meyer), Miss Laurine Hewson and Miss Ella Kuiken. Other services of the Farm Bureau come under the head of legislation, agricultural extension, 4-H club, AAA, etc.

Letters of commendation to the good work done by the Farm Bureau have been received and published in the current issue from Ed. O'Neil, president of the American Farm Bureau Federation, Earl Smith, president of the Illinois Agricultural Association; Howard Leonard, director of agriculture for the state of Illinois, and former president of the I.A.A., J. D. Bilsborrow of the University of Illinois under whose direction Cook county was organized into a Farm Bureau, and Mr. J. C. Spitler, Associate Director of Extension for Illinois.

Farm Bureau members who receive the April issue of the Cooperator will doubtlessly want to put it away and keep it as a reference history for the first 21 years of this organization.

## Final Rites Held For G. Schneberger

Gottlieb Schneberger, Arlington Heights business man, was laid to rest in a mausoleum at Acacia Park cemetery by his brother Masons Monday afternoon. Funeral services had been held at the Lauterburg & Oehler chapel, with Rev. Kossack, friend and brother Mason, officiating. Arlington Heights lodge No. 1192, A. F. & A. M., assisted by members of Palatine Lodge No. 314 gave the Masonic burial rites. Mr. Schneberger was a past master of both lodges and also a past High Priest of Palatine chapter No. 206 R. A. M.

Death came to Mr. Schneberger Friday, March 21, at Billings Memorial hospital. He was 72 years, 11 months, 14 days old.

The life of Mr. Schneberger is a story of a man to whom hard work and determination to achieve success were imbued in his blood. Born in Chicago April 7, 1868, he entered the meat industry, work that required early and long hours. He won recognition and filled various positions of responsibility in the wholesale packing trade. He came to Arlington Heights with his family in 1902, continuing his work in the city, spending his spare time in developing his home which included the growing of a fruit orchard. It was against his nature to waste improvement opportunities.

Deceased entered the business life of Arlington Heghts in 1916 as a silent partner in the present firm of Arlington Elevator & Coal Co. After his retirement from Chicago employment in 1922 he became active in the building material and coal firm. He was one of the organizers of the first business men's organization in Arlington, and for many years took an active interest in affairs of his community.

During recent years, as his health began to fail, he left the management of his business to others, preferring to spend his remaining days in the quiet of his own home.

Mrs. Schneberger died October 10, 1929. There remain one son, George F., four daughters, Mrs. Carrie Hardtke, Emily, Mrs. Alice Siemro and Mrs. Mildred Sherrill and ten grandchildren.

## Park Board Election Is Next Tuesday

### Has Its Own Contest; Three Candidates for One Office

The township election next Tuesday overshadows the park board contest, but the latter election should not be overlooked. There is one office for a full term to be filled and there are three candidates. George Glow is a candidate to succeed himself. The other candidates are Elmer Karstens and Paul E. Patrick.

Mr. Glow is a resident of Scarsdale, is chairman of the finance committee of the park board and has become very much interested in recreational work. A story written by an admirer of Mr. Glow appears on page three of this section.

Mr. Karstens in his candidacy points to the fact that his duties as a police officer take him to the park almost every day during the swimming season. He thinks that as a park board member, he will have added authority and increased opportunity to serve the general public. As a police officer Mr. Karstens has considerable contact with the younger generation and enjoys that portion of his work.

Mr. Patrick has been an active member of the Arlington Heights Garden club for ten years and is very much interested in the beautification of grounds, both public and private. In private life he is supervising engineer for the Bowman Dairy Co., and resides at 319 West Hawthorne.

Marion Hogate is unopposed for the position to fill a vacancy on the board. He was appointed to his present position, on the board, but with the coming election, the law requires that a vote be recorded on the vacancy.

### 9th District Registers Unemployed Legionnaires For Defense Program

In order to assist in the employment phase of National Defense, the 9th District American Legion Department of Illinois has undertaken to register all employed Legionnaires and all other unemployed World War Veterans. In addition all unemployed Legion Auxiliary members and eligibles to the Legion Auxiliary, will be registered.

This is being done to ascertain where these registrants can be reemployed to the best interests of National Defense and also to find where these people may secure opportunities to enable them to support themselves and their families at an American standard of living.

Lloyd Cunningham, 9th District Commander, feels that there will be a good response from those wishing to register and states that: "employers will welcome this movement because it will enable them to secure patriotic American citizens who are dependable, loyal and able to accept their responsibilities to the fullest extent." This feeling is shared by Mrs. Eda Zimmerman, Director, 9th District American Legion Auxiliary. Mrs. Zimmerman has promised the cooperation of every unit of the American Legion Auxiliary in the 9th District not only in assisting in registering the men and women applying for this employment aid but also promises the help of the Auxiliary members in seeking places of employment for the registrants.

If you wish to avail yourself of this servcie you are invited to register at the Legion Post in your own community. A notice will be posted at each Post Headquarters stating the hours at which registrations will be taken. If you are unable to appear at your neighborhood Post Headquarters at the hours so posted, call at the 9th District Employment Office, 5459 Belmont Avenuue, Chicago, which is in charge of Dr. George C. ## Wheeling Center To Elect New School Board

The school government of Wheeling Center, which includes Prospect Heights, will be changed from a district organization to that of a board of education of six members and a president after the school election to be held Feb. 12. The polls will be opened from noon until eight o'clock.

Nominating petitions have been filed for the seven offices as follows:

For President, William G. Lancaster, Jr.; for members (six to be elected), Edward F. Mueller, Frank J. Raupp, Homer C. Torreyson, James M. Nielsen, Carl K. Stehman, Stephen J. Schramek.

School district 23 is one of the fastest growing schools in northwest Cook county. The present school house of two class rooms was built in 1938, and has only been in use since March, 1939. The building is attractive and convenient and with the cooperation of the PTA many conveniences have been installed. Health and dental programs have been sponsored this year.

The members of the present school board are Wm. G. Lancaster, Jr., president; Edward F. Mueller, clerk and Frank J. Raupp, member. Recognizing the growing interest of Prospect Heights in school affairs, the three members of the school board several months ago appointed an advisory committee. In furtherance of this program, a petition was presented to the board asking the formation of a board of education of six members and a president.

The school board was glad to accept the petition as its members realized that the larger school program would be better served with a larger school board in which the people of Prospect Heights would be able to have larger representation. There are six positions to be filled. All of the present members are candidates. Three of the new men are residents of Prospect Heights. The fourth, S. J. Schramek, lives on Willow road. It is a well balanced board in which all parts of the school district have representatives. No opposing candidates have filed petitions.

## Fire Claims Life of Five Year Old Boy

Fire claimed the life of Ronald Buckholz, 5 year old son of Mr. and Mrs. LaVerne Buckholz, when a conflagration swept their home to ruins in Edgewood, near Bensenville, last Friday. The child, ill with the measles, had been left at home in bed by his mother who had gone to a nearby store to do some shopping.

The rural fire department of Bensenville responded quickly when the alarm was given but arrived to find the home razed. The child's charred body was extricated from the debris.

The origin of the fire could not be definitely ascertained by the coroner and the sheriff's investigators who visited the scene of the tragedy. It is thought that it might have started from a defective oil stove.

The fire was first observed by the mother on her return from her shopping trip.

A verdict of accidental death was returned by a coroner's jury. The child is believed to have been first overcome by smoke and then burned to death.

Interviewing hours are from 10 a. m. to 4:30 p. m. except Saturdays, when hours are from 9:00 to 11:30 a. m.

Seniors of local high schools are urged to see their principal for further information relating to the necessary personal interview and the written examination.

## Busy Fingers Provide Clothing for Red Cross

The whir of sewing machines and the clickety-clack of knitting needles reverberate semi-weekly from the local field house and daily from many local homes as scores of busy fingers fashion wearing apparel for the American Red Cross to send to Britain, where it is distributed to refugees in Ireland, unoccupied France, Spain, or any others in countries not under the control of the Nazis. Residents of those countries in "the new order of Europe" are denied such help since the Nazi government has refused all aid offered by the American Red Cross.

Seven hundred and forty-eight garments have been completed since January 1, by the local Red Cross production unit under the direction of Mrs. Paul Carroll, general chairman; and Mrs. Albert Mors, assistant. Mrs. Henry St. John is the knitting instructor. The diversity of garments is apparent in the following list of apparel already sent to the national office: 90 baby blankets, 140 pairs baby bootees, 55 baby gowns, 25 baby bonnets, 25 baby dresses, 220 diapers, 5 children's air raid suits, 45 pairs boys' wool flannel overalls, 10 bathrobes, 30 hospital gowns, 15 operating gowns, 5 men's flannel shirts, 5 boys' flannel shirts, 4 pairs men's flannel pajamas, 15 heavy women's skirts; and hand knitted garments consisting of 15 scarfs, 15 women's coat sweaters, 6 men's coat sweaters, and 8 men's slipover sweaters.

Pins are awarded in recognition of 144 hours spent in the service of the Red Cross—30 credit hours are given for knitting a man's sweater and other garments are rated accordingly. Credit is given for doing sewing at home as well as at the field house. At present 51 women are knitting garments and 30 are sewing. More helpers could be used in each group. Hours at the field house are Monday, 12:00-3:30, and Thursday, 10:00-3:30. Materials for knitting and sewing are obtainable at any time other than these hours at the home of Mrs. Carroll.

**Card Party April 23**

Production materials for the local Red Cross unit have been supplied in the past by the workers and by private donations. Production has increased to such an extent, however, that the cost is now prohibitive. To meet these expenses twenty-five per cent of the profit of the Red Cross benefit card party Wednesday, April 23, will be allocated to the local unit.

The committee in charge of the party hopes to turn over $25 to the unit for such materials as thread, needles, pins, embroidery floss, tapes, binding materials, buttons, zippers, fasteners, and the upkeep of the sewing machines.

National Red Cross headquarters will receive the remainder of the profit from the April 23 card party. Those purchasing tickets can visualize their dollars going to the aid of refugees in the form of bandages, dressings, hospital supplies, surgical instruments, serums, antitoxins, and clothing — for the national office supplies the materials and yarns for the local production units.

**"Refugee" Defined**

A refugee, or one qualified to receive material aid, as defined by the Red Cross, is "any person forced to leave their customary mode of living." Temporary relief is given to all needing it, but those with adequate finances are expected to make restitution. Permanent aid is given to those without homes, clothing, food or resources until new homes and occupations are established.

Recently the Red Cross has added a service for boys in camp, and for their parents. If the parent of an enrollee is ill, a Red Cross representative will call at the home, inform the officer if the boy is needed there, and even provide money for transportation if necessary. Likewise, if a soldier is ill, the Red Cross will provide the same service.

### CHRISTIAN SCIENCE CHURCHES

"Matter" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, March 23.

The Golden Text was, "All flesh is grass, and all the goodliness thereof is as the flower of the field: the grass withereth, the flower fadeth: because the spirit of the Lord bloweth upon it" (Isaiah 40:6, 7).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him. For all that is in the world, the lust of the flesh, and the lust of the eyes, and the pride of life, is not of the Father, but is of the world. And the world passeth away, and the lust thereof: but he that doeth the will of God abideth for ever" (I John 2:15-17).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The crude creations of mortal thought must finally give place to the glorious forms which we sometimes behold in the camera of divine Mind, when the mental picture is spiritual and eternal. Mortals must look beyond fading, finite forms, if they would gain the true sense of things. Where shall the gaze rest but in the unsearchable realm of Mind?" (p. 264).

### Lack of Vitamins Causes Toubles

By C. W. Lussman
of Sieburg Pharmacy

In extreme cases, not likely perhaps to occur to you, a serious lack of vitamins in the diet results in such diseases as beriberi, rickets, scurvy, trachoma.

Lying between this condition and the ideal state of perfect health these is a vast area in which people are not sick, nor are they entirely well. The cause may be attributed to a lack of assimilation of necessary elements in one's food, brought about by lack of proper vitamins.

Science at work in the laboratory has devised a pleasant way of correcting such a lack. Vitamins have been captured, placed in tiny perles or other forms for convenient, easy consumption.

Consult your doctor if you are not up to par. If he advises more vitamin content, refer his prescription to a qualified druggist.

**CHRISTIAN SCIENCE CHURCHES**

"Matter" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, March 23.

The Golden Text was, "All flesh is grass, and all the goodliness thereof is as the flower of the field: the grass withereth, the flower fadeth: because the spirit of the Lord bloweth upon it" (Isaiah 40:6, 7).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him. For all that is in the world, the lust of the flesh, and the lust of the eyes, and the pride of life, is not of the Father, but is of the world. And the world passeth away, and the lust thereof: but he that doeth the will of God abideth for ever" (I John 2:15-17).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The crude creations of mortal thought must finally give place to the glorious forms which we sometimes behold in the camera of divine Mind, when the mental picture is spiritual and eternal. Mortals must look beyond fading, finite forms, if they would gain the true sense of things. Where shall the gaze rest but in the unsearchable realm of Mind?" (p. 264).

## George A. Glow Ready To Serve his Home Town, if Voters Desire

Several years ago, friends of George A. Glow asked him to become a candidate for Village Trustee. After the election a very close friend of his wrote the following poem, which related the results of the election in a humorous but quite clear manner.

THE SETTING OF THE POLITICAL SUN
A great politician and a friend of mine
With one ambition at election time
To be out in front like all big men he knew
But, alas, his great dream has broken in two.

The election is over and gone at last
The cigars were missing as in years gone past.
With fifteen hundred out to vote
Certainly does get a great man's goat
When out in front you're all set to go
And suddenly find they have put you low.

Fifteen hundred casting votes
Politicians in derbys and long black coats.
Shaking hands with all on the street
Even with those they never did meet.
Friends with all in the opinion of mine
Same old racket at election time.

Well it all was over very fast
And the man with great aims has finished last.
For out in front and on top, Ahem!
Was none other than a Mr. Klehm.
Second to him, alas and alack,
Was that congenial gent, John Firnbach.

By a margin as slim as a wafer
Third place was copped by old man Schaeffer.
Fourth place went to this Weber fellow
And to the great politician the blue sky turned yellow.
Maybe so murmurs he in a voice very rough
One guy I'll beat is this boy Hauff.
But fifth place to Mr. Hauff did go.
And the big politician started to blow.

My friends all came out to vote today
And their respects to me they were going to pay.
For said they: "remember Washington at Valley Forge,
We'll put you over, sure thing, George."
And I see they did as all friends should
And doing just as they said they would
Pulling hard they all did do
Making the voters vote as they wanted them to.

The result of their efforts show just what they did
As away from the Crowds the great man slid.
He scampered away and wanted to hide
Says he to himself I think somebody lied.
For after all was over the one finishing low
Was none other than the great politician "George Glow."
(By Ben Pitzen, the Poet Laureate of Arlington Heights)

Since then, the political Son referred to in the foregoing poem, (George A. Glow) has risen many times to give his views on questions appertaining to the affairs of the Park board, on which he has served for a little over two years as Park Commissioner.

If you are interested, and you all should be, you may ask any member of the Park Board as to the value of his being on the board. Your vote will determine whether or not he shall continue his earnest efforts for the best interests of the Park System.

Election day is April 1, 1941, at the Field House in the Park. The results of this election will determine if this Particular Sun will set again, or be requested to continue to Glow on the Arlington Heights Park Board for another term.

## Modern Monarchs Have Tossed Morality Rules Out the Window—Maier

Some of the crowned heads and national leaders of the present generation are following in the footsteps of Herod, Dr. Walter A. Maier of Concordia Seminary declared Sunday in his coast-to-coast Lutheran Hour broadcast.

"Like the Galilean ruler who discarded his wife and married his brother's wife," the radio evangelist said, "some of our modern monarchs have established their own laws and refused to be limited by the requirements of morality. This rotting away of ideals has caused more dynasties to collapse and more thrones to topple in our day than in any like period of the past."

The noted theologian asserted that 70 million persons in the United States are indifferent to the church, even in a period of human crisis which should stir their spiritual thinking. Too many of them feel, according to Dr. Maier, that Christianity should offer them practical advantages such as easy money and easy jobs.

Dr. Maier predicted difficult days for the church as a result of the anti-Christian forces now so widely active throughout the world and pleaded for constant watchfulness by the Christian people of the United States against such influences. He warned particularly against any deviation from the present separation of church and state which, he said, might be altogether too easily brought about under the pressure of violent emergencies.

(By Ben Pitzen, the Poet Laureate of Arlington Heights)

Since then, the political Son referred to in the foregoing poem, (George A. Glow) has risen many times to give his views on questions appertaining to the affairs of the Park board, on which he has served for a little over two years as Park Commissioner.

Election day is April 1, 1941, at the Field House in the Park. The results of this election will determine if this Particular Sun will set again, or be requested to continue to Glow on the Arlington Heights Park Board for another term.

## NORTHBROOK

by EMILY THERRIEN, Phone 78

Mr. and Mrs. Cornelius Sueton attended the funeral of a friend in northern Wisconsin last Saturday. They left in their auto Friday afternoon.

Miss Helen Brehm spent Saturday visiting relatives in Chicago.

**Arthur Delories**

Many friends of the Delories family were shocked to hear of the death of Arthur Delories, on March 22. The son of Dan Delories of Blue Island (and the late Mrs. Phoebe Delories.)

Arthur Delories came to Northbrook with his parents in 1895, he was born in Chicago about 48 years ago and was a small boy when he came to Northbrook and attended school here. About 30 years ago he went to live in California with his wife—and worked there until about a year ago when he became ill. He has a brother Leo in Northbrook, a brother August in Blue Island, also a sister Mrs. Marie Melzer there, a brother Edward in Schiller Park, a sister Mary Sherman in Chicago, also a brother Edgar Alfred there. A sister Eva Strayer and a sister Marion Mentzer passed away several years ago.

Burial was in California beside his wife.

Mrs. Alice Voltz who is spending several months in California is expected home by the first of May.

**Mrs. Clara Easton**

Mrs. Clara Easton was called to her heavenly home on Thursday, March 20, at the Highland Park hospital, after several weeks of illness. Funeral services were held from Lauer Funeral home on Sunday afternoon, to St. Paul church in Deerfield. Rev. F. G. Piepenbrok officiating with interment at Deerfield cemetery. She leaves to mourn her husband, Kashian and three sons and a host of friends from Deerfield and surrounding community.

We are sorry to report that the August Meyers family have moved to Morton Grove. Many friends of St. Norbert's parish will miss them greatly.

Mrs. Viola Wessling is hostess to her circle of the Presbyterian church at a one o'clock luncheon on Wednesday afternoon, March 26.

Mrs. Frieda Klauer had several relatives from Norwood Park, some of whom just returned from a trip to Mexico.

Mrs. Victor Havel had as her luncheon guest last Wednesday, her friends, Mrs. Williams and son from Sauganash.

The Red Cross meeting was held last Tuesday at the Civic building. The meetings of April 1 and 15 will be held at the Northbrook public school house on account of the village elections, but on April 8 the meetings will again be at the Civic building. Do try to come and spend a very pleasant afternoon of sewing for the Red Cross. Meetings are from 1 o'clock to 4 p. m.

Mrs. John Collard is spending several days with her daughter, Mrs. R. Schneider and new grand baby girl born March 10 at Crystal Lake at Woodstock hospital.

Mrs. Henry Biehl was hostess to the Church club of St. Norberts. There were three tables of card and bunco. The winner of the prize of the day was Mrs. John Martell.

We are sorry to report so many members are still sick. Mrs. Cora Schramm, Mrs. J. Farrell, Mrs. Clara Thumel and Miss Julia Lee and all hope for a speedy recovery.

Mrs. V. V. Hipsley, who has been sick for the past few weeks is much better again, we are glad to report.

At the last meeting of the ladies aid at St. Norberts, they planned to have their annual bazaar on June 21 and 22.

A membership campaign for the Holy Name Society is being conducted. Those on the committee are: Ed. Farrell, Frank Gillis, Harry Roepenack, Joe Schwall, Lionel Seguin, Jack Walsh and Jerry Wynn.

Mrs. Victor Havel entertained her bridge club of Wilmette at her home on Walter ave. on Monday afternoon, March 24.

Many friends of the Lockman family, attended the funeral of Mr. William Lockman, last Tuesday at Immanuel Lutheran church, Rev. Paul Meyer officiating. Mr. Lockman was born on May 6, 1861 in Germany and came to this country when only a small boy.

He was married in 1884 to Mary Kruse and they celebrated their 57 years of wedded happiness.

He leaves to mourn him, his wife, two sons, William of Evanston and John in Northbrook and one daughter, Mrs. Minnie Breitzman and many friends, who express their sympathy.

The Presbyterian Ladies' Aid met on Wednesday, March 19, at 2:30. A very interesting meeting with revision of the constitution and by-laws, after which a delicious luncheon was served by Mesdames Cox, Christen and Craig. Mrs. Minnie Dahlberg and Mrs. Vi Richards entertained about 35 ladies at the home of Dahlberg's last Monday afternoon.

Their plans have been changed to have only two birthday socials a year, hence the next one will not be until in the fall. April 23, the ladies are sponsoring a hostess luncheon at 1 p. m. Since it is imperative that they know the number of guests to expect, they ask all who plan to attend to kindly get their tickets before April 9.

And speaking of parties, the Parent-Teachers association ask their friends and supporters not to forget their card and bunco party at the Croatian school hall Friday evening, April 4 at 8.

The examination of this year's class of confirmands at St. Matthews Lutheran church will take place Sunday afternoon, March 30, at the church at 2 o'clock. The thirteen young people in this group are, Phyllis Andring, Emil Bergman, Jr., Marian Engel, Clifford Gewake, Frank Hall, Jr., John Jacobs, Melvin Jensen, Fred Klewert, Jr., Wilbert Koch, Darlys Moss, Wesley Moss, Arnold Moeller and Carolyn Treatler.

News of his death was received in a telegram to his sister, Mrs. Lennie Wolters, 836 Pearson st. An earlier message had informed her that Mr. Reiter was stricken with a heart attack while attending his relative's funeral. Mrs. Reiter was with him at the time of his death.

The Reiters had attended the funeral services in Dorchester, a town near Abbotsford, and had been caught in the blizzard which swept the north central states last week end. The severe cold was believed to have aggravated his heart condition.

Mr. Reiter was born more than seventy years ago in the old homestead at 836 Pearson street. The brick residence there, built by his parents, Mr. and Mrs. Peter Reiter, is one of the oldest landmarks about Des Plaines.

Mr. Reiter had retired from active duty as a railroad man about two years ago after 45 years of service with the Chicago & North Western railroad.

Surviving him are one brother, Joe Reiter, of Center street, and three sisters, Mrs. Lennie Wolters of Pearson street, Mrs. Minnie Bending of Thacker street, and Mrs. Annie Haffner of Forest Park.

Masonic services were held Sunday from the Lauterburg & Oehler chapel to the Congregational church in Des Plaines, Rev. Brehm officiating. Interment Ridgewood.

### Mrs. Sophia Garms Schrage

Mrs. Sophia Garms Schrage was born Oct. 28, 1864 and brought to the Lord in baptism on Nov. 20, of the same year in Germany. She was confirmed in the faith April 20, 1879 and later united in wedlock with Mr. Garms, with whom she emigrated to this country in 1892, and settled in Palatine, where she spent the rest of her life. Four children were born of this first marriage before the death of Mr. Garms in 1908. The deceased was then married to Mr. Wm. Schrage in 1913.

Mrs. Schrage went to Jesus from her home here in Palatine March 18, at 1:30 p. m. at the age of 76 years, 4 months and 18 days. She leaves to mourn her departure in the Lord, her husband, two children, a daughter and a son, one son-in-law, one daughter-in-law, six grandchildren, one great grandchild, a niece and a nephew. Her body was laid to rest in the Immanuel Evangelical Lutheran cemetery on the south side of Palatine.

"Blessed are the dead which die in the Lord from henceforth. Yea saith the Spirit, that they may rest from their labors, and their works do follow them."

### Walter Miller

Walter J. Miller, 607 Des Plaines ave. Des Plaines, died Thursday morning at the Northwestern hospital of sudden hemorrhages, following an internal disorder. Mr. Miller, a native of Des Plaines and World War veteran, was widely known here and in Chicago where he was engaged in the industrial loan and mortgage business.

Surviving him are his wife, Eleanor, a son, John, a brother, Garfield of Park Ridge, and his father Fred Miller, of Des Plaines.

Services were held Saturday at the Lauterburg and Oehler Des Plaines chapel with Rev. Brehm officiating. Interment Town of Maine.

### Mrs. Emma K. Wilkening

Mrs. Emma Kastning Wilkening, 123 N. Liberty st., Elgin, widow of Herman Wilkening, died early Sunday morning at Sherman hospital.

She was born in Schaumburg on August 26, 1869 and had made her home in Elgin for the last 49 years.

She was a member of St. John's Evangelical Latheran church.

Survivors are five sons, Arthur F., Alvin H., Albert J., Raymond H. and Edward H. Wilkening; one daughter, Hilda M. Wilkening, all of Elgin, and 11 grandchildren.

Funeral services were held Tuesday afternoon at 1:30 from the Wait - Ross - Allanson funeral church, Elgin, and at 2 from St. John's Evangelical Lutheran church with the Rev. Elmer Grotelueschen officiating.

## You Should Go to the Polls Next Tuesday

Because the coming Township Election has been devoid of any red hot issues, there will probably be many people who are not planning on going to the polls next Tuesday. Such an attitude is a grave mistake.

If the representative form of government under which we live is to function efficiently and well the Citizens thereof must exercise that greatest of all Civic privilege -- the Vote.

While most people take a deep interest in National Elections, many are prone to ignore their local election on the theory that it is of little importance to them. This is a serious error since it is the local officials, their behavior and official acts which most vitally affect our welfare in our everyday life and business affairs.

The present audit completed March 25, 1941, by a certified public accountant shows a surplus in the Town Fund for the past year of $3,049.56.

Your present Officials have had a definite policy of economy and sound business methods which are well known to the informed public, and which policies, the Candidates on the Regular Ticket have pledged themselves to continue.

The present board members and your officials are entitled to an expression upon the part of the Voters.

If the members of the Regular Ticket are elected it will mean that the general public approve the policies of the present Board. If they are defeated it will mean either the opposite or that the great majority of the voters of Wheeling Township are indifferent to the administration of those financial affairs of their Community that so vitally affect their own interests.

The Election next Tuesday gives you, Mr. and Mrs. Voter, the opportunity to express your opinion and thus have a part in shaping the destinies of your Township. The polls will open at 6 o'clock A. M. and remain open until five o'clock P. M.

The Regular Ticket.

### The Supervisorship

The office of Supervisor for the Township is an eminently important one.

It is his duty to handle and administer the matter of Township Relief. He is Treasurer of the Road and Bridge Fund; Treasurer of the Town Fund and Chairman of the Township Board of Health. He is "on call" at any hour, day and night; in time of financial distress, illness and death, your Township Supervisor is the friend and servant of the dependent families of your Community. Your present Supervisor, Gilbert J. Klehm. with the whole-hearted support of the present Board, has made such an enviable record in that Office for able, efficient and economical service that his re-election, without opposition, was assured.

### The Town Clerk

Howard Helm, present Clerk of your Township, needs no introduction to the Voters of Wheeling Township. He has served the Community in that positon and has performed his duties so well that his re-election to office has not been opposed.

### The Assessor

Your Assessor examines and evaluates the property of every resident in the Townsip for taxation purposes.

J. Fred Meyer has served the public of our Community fairly and equitably in this office for a number of years and his cheerful and patient consideration to all has won him a host of friends.

Mr. Meyer reiterates his previous pledge "to conduct my office in the interest of the Taxpayers — to give the highest type of service — a service which is yours to command at all times". He has kept that pledge so well that he stands before the people unopposed.

### The Highway Commissioner

It is the duty of the Highway Commissioner to maintain and keep in good repair the Township's Roads, Bridges and Culverts. Floyd Dobbins, better known to most Wheeling Township residents as "Mike", is the Regular Party's candidate for this office. He has resided in Wheeling Township for the past 30 years and his father is still living on the Pearson Farm on Wheeling Road. "Mike" is thoroughly acquainted with all roads in Wheeling Township and is experienced in the operation and care of all machinery used in the care and maintenance of roads. He was employed for 8 years with Meyer Construction Co. and Bjorndahl Construction Co. in road building and construction work.

"Mike" has assisted in preservation of Peace in the Township in the Office of Constable for 8 years, and has helped to protect and preserve public and private property as a member of the Arlington Heights Fire Department for 6 years.

He has been a loyal and efficient servant of the public and is deserving of your Vote.

### The Tax Collector

"Taxes" is usually a disagreeable subject matter of conversation; but nevertheless, "taxes" are an absolute necessity for the good of the Community as a whole, since it is from Taxation that funds are derived with which to meet and pay for the relief of the distressed people of a Community, the maintenance of our roads, preservation of Peace and protection of property, administration of the business affairs of our Government, and many other important public activities.

Fred J. Lorenzen has, for many years past, capably and efficiently served the Village of Arlington Heights as its Collector and Treasurer. His unfailing courtesy in that office has won the friendship of all with whom he has come into contact. He is possessed in a marked degree of the knowledge, experience and ability to capably serve the Community as its Tax Collector.

### School Trustee

John Schoenbeck, the Regular Party candidate for office of School Trustee, is well and favorably known to the entire community and is unopposed for that office. He will serve the public capably.

## Your Privilege Is Your Duty

Tuesday is an important day to each and every Voter and Tax Payer in Wheeling Township.

Exercise your Privilege to cast your Ballot for Township Officers; protect your personal liberties and property rights, and insure continuation of Good Government in your Township's business affairs. The candidates whose names appear under the "Regular Party" column take this means of acquainting the Voters with certain pertinent facts, and those who read this article will be made more familiar with Township business affairs and assisted in arriving at a decision as to their preference for Town Officers.

The financial affairs of your Township and their supervision is vested in a Board of Auditors, composed of the Township Supervisor, 5 Justices of the Peace and a Township Clerk.

The majority of your present Township Officers are now candidates for re-election on the "Regular Party" Ticket and they have associated with themselves, on that Ticket, a group of men chosen for their proven ability, responsibility and integrity.

Actuated by the sole desire of maintaining and continuing their past record of efficient, economical service and Good government in Township affairs, they are individually and collectively asking the support of the Voters for their entire group.

### The Justices of the Peace

The office of Justice of the Peace is far more important to the interest of the Community than is generally known since the individual Justices not only preside as Judges of the Law and evidence in cases involving infractions of Laws and disputes pertaining to civil matters, but the 5 Justices elected to their Office are required by Law to constitute, in conjunction with the Township Supervisor and Clerk, a Board of Auditors and to examine and pass upon all Township bills and expenditures.

Every resident and taxpayer in Wheeling Township hopes that he or she will have no necessity to appear as a party plaintiff or defendant in the Justice Court, but should the occasion arise so to do — when we are before THE JUDGE, we earnestly want the man upon the bench to be one in whom we can have confidence, a man of calm, judicial temperament, with mature judgment and without bias or prejudices.

The men on our ticket as candidates for this Office are such men, having been carefully chosen for their qualifications and their past records of business knowledge, experience and integrity.

Judges William M. Weber and Carl M. Behrens have served the public in Office for the past 4 years and more and by their performances have demonstrated their ability and fitness for re-election. W. E. Fritz and Harvey M. Adams are Lawyers of many years experience, knowleidge and training, and possess all of the required qualifications to capably serve the public interests.

William F. Lawrence is possessed of many years of business training and experience with many years service as Railroad Station Agent at Wheeling, Illinois, in which position he has been in daily contact with and meeting and serving the public and is well qualified.

### The Township Constables

The Constables of the Township are subject to call for preservation of the Peace of the Community, as well as being Process Servers, and the men chosen upon the Regular Party ticket for that office have been carefully selected to most efficiently render the service they may be called upon to perform as Constables.

Carl H. Skoog and Raymond Lesch are the Chiefs of Police of Arlington Heights and Wheeling, respectfully; Fred Hinz, Harold Lamb and E. C. Stroker are men of intelligence and character and possess all of the desired qualifications to efficiently perform the duties of the office.

As the Township campaign draws to a close it is a great satisfaction to us that this has been, in the main, a clean one, devoid of personalities; we trust that the same spirit of decency and fair play will remain until the last vote is counted, and that those who are elected will have the full and wholehearted support of all.

The Regular Party Ticket.

### The Highway Commissioner

It is the duty of the Highway Commissioner to maintain and keep in good repair the Township's Roads, Bridges and Culverts. Floyd Dobbins, better known to most Wheeling Township residents as "Mike", is the Regular Party's candidate for this office. He has resided in Wheeling Township for the past 30 years and his father is still living on the Pearson Farm on Wheeling Road. "Mike" is thoroughly acquainted with all roads in Wheeling Township and is experienced in the operation and care of all machinery used in the care and maintenance of roads. He was employed for 8 years with Meyer Construction Co. and Bjorndahl Construction Co. in road building and construction work.

"Mike" has assisted in preservation of Peace in the Township in the Office of Constable for 8 years, and has helped to protect and preserve public and private property as a member of the Arlington Heights Fire Department for 6 years.

He has been a loyal and efficient servant of the public and is deserving of your Vote.

**JOHN SCHOENBECK**
**Candidate for School Trustee is Unopposed**
**His Name Appears at Bottom of the Ballot**

J. FRED MEYER
For Assessor

FRED H. LORENZEN
For Collector

### The Tax Collector

"Taxes" is usually a disagreeable subject matter of conversation; but nevertheless, "taxes" are an absolute necessity for the good of the Community as a whole, since it is from Taxation that funds are derived with which to meet and pay for the relief of the distressed people of a Community, the maintenance of our roads, preservation of Peace and protection of property, administration of the business affairs of our Government, and many other important public activities.

Fred J. Lorenzen has, for many years past, capably and efficiently served the Village of Arlington Heights as its Collector and Treasurer. His unfailing courtesy in that office has won the friendship of all with whom he has come into contact. He is possessed in a marked degree of the knowledge, experience and ability to capably serve the Community as its Tax Collector.

### School Trustee

John Schoenbeck, the Regular Party candidate for office of School Trustee, is well and favorably known to the entire community and is unopposed for that office. He will serve the public capably.

## Your Privilege Is Your Duty

Tuesday is an important day to each and every Voter and Tax Payer in Wheeling Township.

Exercise your Privilege to cast your Ballot for Township Officers; protect your personal liberties and property rights, and insure continuation of Good Government in your Township's business affairs. The candidates whose names appear under the "Regular Party" column take this means of acquainting the Voters with certain pertinent facts, and those who read this article will be made more familiar with Township business affairs and assisted in arriving at a decision as to their preference for Town Officers.

The financial affairs of your Township and their supervision is vested in a Board of Auditors, composed of the Township Supervisor, 5 Justices of the Peace and a Township Clerk.

The majority of your present Township Officers are now candidates for re-election on the "Regular Party" Ticket and they have associated with themselves, on that Ticket, a group of men chosen for their proven ability, responsibility and integrity.

Actuated by the sole desire of maintaining and continuing their past record of efficient, economical service and Good government in Township affairs, they are individually and collectively asking the support of the Voters for their entire group.

### The Justices of the Peace

The office of Justice of the Peace is far more important to the interest of the Community than is generally known since the individual Justices not only preside as Judges of the Law and evidence in cases involving infractions of Laws and disputes pertaining to civil matters, but the 5 Justices elected to their Office are required by Law to constitute, in conjunction with the Township Supervisor and Clerk, a Board of Auditors and to examine and pass upon all Township bills and expenditures.

Every resident and taxpayer in Wheeling Township hopes that he or she will have no necessity to appear as a party plaintiff or defendant in the Justice Court, but should the occasion arise so to do — when we are before THE JUDGE, we earnestly want the man upon the bench to be one in whom we can have confidence, a man of calm, judicial temperament, with mature judgment and without bias or prejudices.

The men on our ticket as candidates for this Office are such men, having been carefully chosen for their qualifications and their past records of business knowledge, experience and integrity.

Judges William M. Weber and Carl M. Behrens have served the public in Office for the past 4 years and more and by their performances have demonstrated their ability and fitness for re-election. W. E. Fritz and Harvey M. Adams are Lawyers of many years experience, knowleldge and training, and possess all of the required qualifications to capably serve the public interests.

William F. Lawrence is possessed of many years of business training and experience with many years service as Railroad Station Agent at Wheeling, Illinois, in which position he has been in daily contact with and meeting and serving the public and is well qualified.

### The Township Constables

The Constables of the Township are subject to call for preservation of the Peace of the Community, as well as being Process Servers, and the men chosen upon the Regular Party ticket for that office have been carefully selected to most efficiently render the service they may be called upon to perform as Constables.

Carl H. Skoog and Raymond Lesch are the Chiefs of Police of Arlington Heights and Wheeling, respectfully; Fred Hinz, Harold Lamb and E. C. Stroker are men of intelligence and character and possess all of the desired qualifications to efficiently perform the duties of the office.

As the Township campaign draws to a close it is a great satisfaction to us that this has been, in the main, a clean one, devoid of personalities; we trust that the same spirit of decency and fair play will remain until the last vote is counted, and that those who are elected will have the full and wholehearted support of all.

The Regular Party Ticket.

CARL H. SKOOG
Candidate for Constable

FRED HINZ
Candidate for Constable

HAROLD LAMB
Candidate for Constable

RAYMOND LESCH
Candidate for Constable

E. C. STROKER
Candidate for Constable

## Scouts to be Guests At Great Lakes Naval Training Station

The more than 400 Boy Scouts of the Northwest Suburban Council who attended the annual round-up in Barrington last year well remember the wonderful time which they had at this all-day program of fun and sight-seeing.

This year, scouts and scouters have the opportunity and real privilege of a special tour of the Great Lakes Naval Training Station Wednesday, April 16.

The trip will be made by United Motor Coach Company busses and the round-trip fair from any part of the council will be only 40c. The scouts will bring their own lunches and milk may be purchased on the reservation.

Adequate adult leadership will accompany the scouts and every precaution will be taken for the health and safety of those making the trip.

Commander C. P. Cecil, executive officer of the station, is cooperating in a very fine way in this round-up and the scouts will be taken through the station in small parties, each party in charge of a petty officer. A great many interesting things will be seen including the museum of model boats, the armory with a large variety of naval equipment, the boat house and docks and the barracks and mess hall.

Wednesday is the regular day for the naval review and weather permitting, this will be witnessed by the scouts.

Every troop has received tickets for the bus ride and these must be purchased and report made to scout headquarters by Saturday, April 5. It is very important that all tickets be sold by this time in order to make plans for transportation.

Candidate scouts, who are 12 years of age and upwards, may accompany their troops.

The round-up committee is as follows: W. A. Miles of Arlington Heights, chairman; John Meldrum of Skokie, A. R. Crawford of Niles, H. P. Dunsmore, M. C. Rhodes, Otto Harz and W. C. Strassheim of Park Ridge, E. N. Fletcher of Des Plaines, L. J. Webster of Arlington Heights and W. K. Tucker of Barrington.

## The Old Gardener Says

March is the month when the garden—and the gardener— feel the urge of spring, yet March furnishes many alibies to the less enthusiastic—the soil is too wet, the ground too cold—don't use these alibies. Get out and garden!

Now is the time to start your garden calendar. Keep a record each week of all the flowers and shrubs in bloom in your garden. It will be valuable next fall and winter in planning additional plants.

Plant food may now be applied, and the ground spaded as soon as the soil is dried out—except in the perennial border, here it might do more harm than good.

Remove the mulch from your perennial borders as soon as freezing and thawing are over. Most folks are prone to leave mulch on too long rather than remove it too early. Remove it before tops start to grow.

Check your garden tools. Be sure when purchasing tools to buy those that will stand the gaff. They'll far outlast the cheaper ones.

And—don't forget the fourth annual Mt. Prospect flower show to be held Saturday, June 7.

## Scouts to be Guests At Great Lakes Naval Training Station

The more than 400 Boy Scouts of the Northwest Suburban Council who attended the annual round-up in Barrington last year well remember the wonderful time which they had at this all-day program of fun and sight-seeing.

This year, scouts and scouters have the opportunity and real privilege of a special tour of the Great Lakes Naval Training Station Wednesday, April 16.

The trip will be made by United Motor Coach Company busses and the round-trip fair from any part of the council will be only 40c. The scouts will bring their own lunches and milk may be purchased on the reservation.

Adequate adult leadership will accompany the scouts and every precaution will be taken for the health and safety of those making the trip.

Commander C. P. Cecil, executive officer of the station, is cooperating in a very fine way in this round-up and the scouts will be taken through the station in small parties, each party in charge of a petty officer. A great many interesting things will be seen including the museum of model boats, the armory with a large variety of naval equipment, the boat house and docks and the barracks and mess hall.

Wednesday is the regular day for the naval review and weather permitting, this will be witnessed by the scouts.

Every troop has received tickets for the bus ride and these must be purchased and report made to scout headquarters by Saturday, April 5. It is very important that all tickets be sold by this time in order to make plans for transportation.

Candidate scouts, who are 12 years of age and upwards, may accompany their troops.

The round-up committee is as follows: W. A. Miles of Arlington Heights, chairman; John Meldrum of Skokie, A. R. Crawford of Niles, H. P. Dunsmore, M. C. Rhodes, Otto Harz and W. C. Strassheim of Park Ridge, E. N. Fletcher of Des Plaines, L. J. Webster of Arlington Heights and W. K. Tucker of Barrington.

## The Old Gardener Says

March is the month when the garden—and the gardener— feel the urge of spring, yet March furnishes many alibies to the less enthusiastic—the soil is too wet, the ground too cold—don't use these alibies. Get out and garden!

Now is the time to start your garden calendar. Keep a record each week of all the flowers and shrubs in bloom in your garden. It will be valuable next fall and winter in planning additional plants.

Plant food may now be applied, and the ground spaded as soon as the soil is dried out—except in the perennial border, here it might do more harm than good.

Remove the mulch from your perennial borders as soon as freezing and thawing are over. Most folks are prone to leave mulch on too long rather than remove it too early. Remove it before tops start to grow.

Check your garden tools. Be sure when purchasing tools to buy those that will stand the gaff. They'll far outlast the cheaper ones.

And—don't forget the fourth annual Mt. Prospect flower show to be held Saturday, June 7.

PRAIRIE SON

Brother, have you there a door with low-worn sill
That your feet have worn smoother as mine surely will?
Have you an eastern window as of yore, that so
Each day you see the prairie grasses bend and flow?
Does morning break and touch the fields with penciled ray,
While prairie chickens boom afield and wake the day?
Do furrows from the plow stretch onward endlessly
Like combers breaking on a level prairie sea?
And even yet does your hand feel the plow
While sweat of honest toil bedews your brow?
Then some day, viewing your ancestral fields,
Be glad that peace is the best crop the old farm yields.

The genial gentlemen of the Information Please program are sometimes stumped by nursery rhymes; there is one, current for years in our family, which may or may not be familiar to them, but is appropriate to the calendar month:

"A raging, roaring lion
Of the lamb devouring kind,
Reformed and led a peaceful life;
For with face all wreathed in smiles
He propelled a lamb for miles
And wed a wooly spinster for a wife."

Twenty-five dollars and a set of the Encyclopedia Britannica, please.

S'Amuser.

**Fingers Came First**

Forks were used as weapons in ancient times, and were not introduced into England from Italy for table use until early in the Seventeenth century.

**Sway of Skyscraper**

The amount of sway at the top of a skyscrapper in the strongest wind has been estimated at a few inches or less.

**Sarah Bernhardt**

In her later years, Sarah Bernhardt pulled back her wrinkles to her neck and fastened them with a clothespin-like device, to satisfy an audience who expected to find her always the "Divine Sarah."

**Japanese Nation**

The Japanese empire dates back to a date as remote as 660 B. C., when the mythical Jimmu, popularly believed to be a direct offspring of the gods, became the first emperor.

PRAIRIE SON

Brother, have you there a door with low-worn sill
That your feet have worn smoother as mine surely will?
Have you an eastern window as of yore, that so
Each day you see the prairie grasses bend and flow?
Does morning break and touch the fields with penciled ray,
While prairie chickens boom afield and wake the day?
Do furrows from the plow stretch onward endlessly
Like combers breaking on a level prairie sea?
And even yet does your hand feel the plow
While sweat of honest toil bedews your brow?
Then some day, viewing your ancestral fields,
Be glad that peace is the best crop the old farm yields.

The genial gentlemen of the Information Please program are sometimes stumped by nursery rhymes; there is one, current for years in our family, which may or may not be familiar to them, but is appropriate to the calendar month:

"A raging, roaring lion
Of the lamb devouring kind,
Reformed and led a peaceful life;
For with face all wreathed in smiles
He propelled a lamb for miles
And wed a wooly spinster for a wife."

Twenty-five dollars and a set of the Encyclopedia Britannica, please.

S'Amuser.

**Fingers Came First**

Forks were used as weapons in ancient times, and were not introduced into England from Italy for table use until early in the Seventeenth century.

**Sway of Skyscraper**

The amount of sway at the top of a skyscrapper in the strongest wind has been estimated at a few inches or less.

**Sarah Bernhardt**

In her later years, Sarah Bernhardt pulled back her wrinkles to her neck and fastened them with a clothespin-like device, to satisfy an audience who expected to find her always the "Divine Sarah."

**Japanese Nation**

The Japanese empire dates back to a date as remote as 660 B. C., when the mythical Jimmu, popularly believed to be a direct offspring of the gods, became the first emperor.

THEY MEET AT LAST! -- Those ace comedians, those fearless feudists, Jack Benny and Fred Allen, stand nose to nose, ready to commit merry mayhem in their musical farce, "Love Thy Neighbor," which comes Sunday to the Palatine Theatre for three days showing through Tuesday. The second feature is a mystery play, the case of the "Black Parrot."

# WALTHER LEAGUE

## Northern Illinois District

News items for this department should be mailed not later than Monday to Arlene Nagel, publicity chairman, 804 N. Douglas St., Arlington Heights.

Short and sweet this week—seems there is nothing doing just now except operetta praceice. Most of us have spring fever, but so far we have heard nothing about hikes except that the operetta crew plans to go out after practice for a hike and a meal one of these fine Sundays.

A goodly number of Leaguers are members of the Arlington Senior choir which gave a very fine concert Sunday (or so I'm told). They have been practicing for a long time, but now will concentrate on Easter music.

We understand that practically all of the Leagues are planning on coloring eggs for some institution and on serving Easter breakfast. Perhaps those are the reasons we haven't heard of anything else. And don't forget those window displays for Easter or for Holy Week if you haven't already made use of this very convincing and yet simple of giving testimony.

The Arlington juniors sponsored a roller-skating party at Higgins-Canfield last Friday to which a large number of guests were invited.

Really nothing to announce or discuss and there is no sense in rambling on with no purpose, so shall close with this:

A lot of you are planning on using your talents at the pre-talent festival at Park Ridge on April 29. The rest of us will be on deck to be the audience so set that date aside.

**No Writ for Wife**

A man in Corpus Christi, Texas, called the justice of the peace at 4 a. m. for a search warrant for his wife and when advised that none could be issued, told the magistrate to "just forget it," as what he really wanted back was his furniture, from the man who also stole his wife.

Amending the State Constitution — The Illinois Constitution of 1870 contains many basic provisions upon which present state agricultural laws are founded. Frequently legislation is desired which is prohibited by the constitution. This calls attention to the ways in which amendments can be made.

Illinois has what may be fairly called a "rigid" constitution, or one that is not easily changed. The substance of amendatory provisions contained in the constitution itself and in state legislation is as follows:

The constitution may be amended either through calling a convention with power to make general revision or by submitting individual amendments to voters at an election of members of the general assembly.

A constitutional convention may be called when favored by two-thirds of the members of each house of the general assembly, and by a majority of the electors voting at the next general election held after approval by the general assembly. Members of the convention are elected by senatorial districts, two from each district. Such conventions have been approved four times since the first constitution, that of 1818 was adopted. Two of these conventions resulted in the constitution of 1848 and the present constitution, that of 1871. Constitutions prepared at the other two conventon were rejected by popular vote in 1862 and 1922.

The altered or revised constitution adopted by a convention must be submitted to popular vote at an election held for the purpose and does not become effective unless approved by a majority of those voting at the election.

Individual amendments to the constitution may be proposed in the general assembly and if approved by two-thirds of the members of each house are submitted to the voters of the state at the next election of members in the general assembly. There must be a statewide publication of the proposed amendment before the election. If a majority of the electors voting at the election favor the amendment, it becomes a part of the constitution. The general assembly can not propose amendments to more than one article of the constitution at the same session nor to the same article oftener than once in four years.

Provisions on amendments are in the Constitution, Article XIV, sections 1-2 and in the Illinois Revised Statutes chapter 7½, sections 1-11.

# NEWS OF SPRINGFIELD

by

**Bernice T. Van der Vries**
**Representative, 7th District**
**General Assembly of Illinois**

The bright green handbooks of the Illinois Legislature which made their appearances in the mail boxes of the members on St. Patrick's day revealed some interesting information regarding the 51 members of the senate and the 151 (two have died since the election) of the house.

In the senate ten are lawyers, five are farmers and three are merchants. There are two each who list their occupations as grain dealers, insurance, insurance and real estate, law and farming, publishers, real estate and theatre owners. The remainder of the members are spread among a variety of professions and businesses, with one to each.

In the house there are thirty-five lawyers, fifteen farmers and ten engaged in real estate. The business of merchandising claims seven, insurance, five, and real estate, five. Fifty-nine other professions and occupations are listed. Two members give legislation as their sole occupation. Considering the fact that three to four days a week are given over to legislation in Springfield each week for six months and most of the time of the members when at home week-ends, and two who listed legislation as their occupations were the most accurate.

**Labor Legislation**

Labor legislation as proposed in the Wage and Hour bills continues to be the most controversial business in the Assembly at the present time. This is reflected in the mail of the members and by the attendance in Springfield at the hearings by large numbers of the proponents and the opponents. Many legislators are beginning to ask whether this is the time to give labor everything which it demands in increased wages and shorter hours when men who are drafted sacrifice their professions and jobs and serve at $21 a month with no specified hours of labor.

A bill providing aid for dependent children are introduced on Wednesday under the sponsorship of four Republicans and four Democrats. It will be known henceforth as A.D.C. It calls for an appropriation of $16,000,000 dollars, one half of which would be paid by the Federal Government if Illinois passes a bill which conforms to the standards of the Federal Social Security board. Proponents of the bill had stated before the bill was introduced that six million would be sufficient for Illinois' share and that 70,000 children would qualify, but the new figures give the possibility of 92,000 being recipients. The present mother's pension which is administered through the courts would be abolished and the proposed aid would be handled through county welfare committees.

**Some New Bills**

Bills introduced by members of the Seventh district since last announced are as follows:

Senator Bidwill:

S.B. 164 with Senator Keane appropriates $25,000 to the commission for educating mentally handicapped children for the purposes of administering the provisions of the Act to create a commission for mentally handicapped children.

S.B. 172 amends Indebtedness Limitation Act so that limitation shall not apply to the creation of working cash funds in city, village or incorporated town.

S.B. 173, Amends Justice of the Peace and Constables Act.

S.B. 209, with Senator Keane. Amends Insurance code relative to investments of insurance companies.

S.B. 211. Amends Optometry Act.

Representative McGrath:

H.B. 372. Places regulation of book-making in the Department of Registration and Education. License fee $1,000.

H.B. 373. Provides that no beer may be sold in the state unless label shows clearly the content.

Representative Sprague:

H.B. 329. Regulates "industrial selling."

Representative Van der Vries:

THEY MEET AT LAST! -- Those ace comedians, those fearless feudists, Jack Benny and Fred Allen, stand nose to nose, ready to commit merry mayhem in their musical farce, "Love Thy Neighbor," which comes Sunday to the Palatine Theatre for three days showing through Tuesday. The second feature is a mystery play, the case of the "Black Parrot."

# WALTHER LEAGUE

## Northern Illinois District

News items for this department should be mailed not later than Monday to Arlene Nagel, publicity chairman, 804 N. Douglas St., Arlington Heights.

Short and sweet this week—seems there is nothing doing just now except operetta praceice. Most of us have spring fever, but so far we have heard nothing about hikes except that the operetta crew plans to go out after practice for a hike and a meal one of these fine Sundays.

A goodly number of Leaguers are members of the Arlington Senior choir which gave a very fine concert Sunday (or so I'm told). They have been practicing for a long time, but now will concentrate on Easter music.

We understand that practically all of the Leagues are planning on coloring eggs for some institution and on serving Easter breakfast. Perhaps those are the reasons we haven't heard of anything else. And don't forget those window displays for Easter or for Holy Week if you haven't already made use of this very convincing and yet simple of giving testimony.

The Arlington juniors sponsored a roller-skating party at Higgins-Canfield last Friday to which a large number of guests were invited.

Really nothing to announce or discuss and there is no sense in rambling on with no purpose, so shall close with this:

A lot of you are planning on using your talents at the pre-talent festival at Park Ridge on April 29. The rest of us will be on deck to be the audience so set that date aside.

Even from the grave, Hitler expects to rule Germany. An article in the Morning News of Dallas, Texas, says that Hitler has made recordings of orders he expects to be carried out through broadcast, after his death.

**No Writ for Wife**

A man in Corpus Christi, Texas, called the justice of the peace at 4 a. m. for a search warrant for his wife and when advised that none could be issued, told the magistrate to "just forget it," as what he really wanted back was his furniture, from the man who also stole his wife.

Amending the State Constitution — The Illinois Constitution of 1870 contains many basic provisions upon which present state agricultural laws are founded. Frequently legislation is desired which is prohibited by the constitution. This calls attention to the ways in which amendments can be made.

Illinois has what may be fairly called a "rigid" constitution, or one that is not easily changed. The substance of amendatory provisions contained in the constitution itself and in state legislation is as follows:

The constitution may be amended either through calling a convention with power to make general revision or by submitting individual amendments to voters at an election of members of the general assembly.

A constitutional convention may be called when favored by two-thirds of the members of each house of the general assembly, and by a majority of the electors voting at the next general election held after approval by the general assembly. Members of the convention are elected by senatorial districts, two from each district. Such conventions have been approved four times since the first constitution, that of 1818 was adopted. Two of these conventions resulted in the constitution of 1848 and the present constitution, that of 1871. Constitutions prepared at the other two conventon were rejected by popular vote in 1862 and 1922.

The altered or revised constitution adopted by a convention must be submitted to popular vote at an election held for the purpose and does not become effective unless approved by a majority of those voting at the election.

Individual amendments to the constitution may be proposed in the general assembly and if approved by two-thirds of the members of each house are submitted to the voters of the state at the next election of members in the general assembly. There must be a statewide publication of the proposed amendment before the election. If a majority of the electors voting at the election favor the amendment, it becomes a part of the constitution. The general assembly can not propose amendments to more than one article of the constitution at the same session nor to the same article oftener than once in four years.

Provisions on amendments are in the Constitution, Article XIV, sections 1-2 and in the Illinois Revised Statutes chapter 7½, sections 1-11.

# NEWS OF SPRINGFIELD

by

**Bernice T. Van der Vries**
**Representative, 7th District**
**General Assembly of Illinois**

The bright green handbooks of the Illinois Legislature which made their appearances in the mail boxes of the members on St. Patrick's day revealed some interesting information regarding the 51 members of the senate and the 151 (two have died since the election) of the house.

In the senate ten are lawyers, five are farmers and three are merchants. There are two each who list their occupations as grain dealers, insurance, insurance and real estate, law and farming, publishers, real estate and theatre owners. The remainder of the members are spread among a variety of professions and businesses, with one to each.

In the house there are thirty-five lawyers, fifteen farmers and ten engaged in real estate. The business of merchandising claims seven, insurance, five, and real estate, five. Fifty-nine other professions and occupations are listed. Two members give legislation as their sole occupation. Considering the fact that three to four days a week are given over to legislation in Springfield each week for six months and most of the time of the members when at home week-ends, and two who listed legislation as their occupations were the most accurate.

**Labor Legislation**

Labor legislation as proposed in the Wage and Hour bills continues to be the most controversial business in the Assembly at the present time. This is reflected in the mail of the members and by the attendance in Springfield at the hearings by large numbers of the proponents and the opponents. Many legislators are beginning to ask whether this is the time to give labor everything which it demands in increased wages and shorter hours when men who are drafted sacrifice their professions and jobs and serve at $21 a month with no specified hours of labor.

A bill providing aid for dependent children are introduced on Wednesday under the sponsorship of four Republicans and four Democrats. It will be known henceforth as A.D.C. It calls for an appropriation of $16,000,000 dollars, one half of which would be paid by the Federal Government if Illinois passes a bill which conforms to the standards of the Federal Social Security board. Proponents of the bill had stated before the bill was introduced that six million would be sufficient for Illinois' share and that 70,000 children would qualify, but the new figures give the possibility of 92,000 being recipients. The present mother's pension which is administered through the courts would be abolished and the proposed aid would be handled through county welfare committees.

**Some New Bills**

Bills introduced by members of the Seventh district since last announced are as follows:

Senator Bidwill:

S.B. 164 with Senator Keane appropriates $25,000 to the commission for educating mentally handicapped children for the purposes of administering the provisions of the Act to create a commission for mentally handicapped children.

S.B. 172 amends Indebtedness Limitation Act so that limitation shall not apply to the creation of working cash funds in city, village or incorporated town.

S.B. 173, Amends Justice of the Peace and Constables Act.

S.B. 209, with Senator Keane. Amends Insurance code relative to investments of insurance companies.

S.B. 211. Amends Optometry Act

Representative McGrath:

H.B. 372. Places regulation of book-making in the Department of Registration and Education. License fee $1,000.

H.B. 373. Provides that no beer may be sold in the state unless label shows clearly the content.

Representative Sprague:

H.B. 329. Regulates "industrial selling."

Representative Van der Vries:

# AAA Sign-Up Heavier This Spring

From all reports coming in from the various townships it is apparent that the AAA sign-up is much heavier than it has been in any year past. There are probably a number of reasons for this heavy-sign-up. Due to the war farmers are more conscious than ever that they cannot depend on exporting surplus crops to Europe. It is obvious also that the corn under seal is piling up and surpluses cannot be continued indefinitely. Then, too, it is realized that quotas will probably be voted on this fall and the non-cooperator is likely to be in a bad position.

## What About These New Oats?

Farmers from all sections of Illinois are inquiring about new varieties of oats. The varieties most commonly mentioned are Legacy, Vanguard, Belgian, and Swedish Star. These oats were produced outside the Corn Belt and have been widely publicised by seed companies outside Illinois. The Boone, Hancock, and Marion were originally produced by Federal and State plant breeders.

One of the questions most frequently asked is, "Are they hybrid?" The Legacy, Vanguard, and Swedish Star, like Boone, Hancock and Marion are new varieties which are the results of crosses involving different varieties of oats.

When the plant breeder makes a cross between two varieties or types, he is laying out for himself a program involving a number of years of careful selection. During the first three to six years following the actual making of the cross, it is necessary for the breeder to select many different types of progeny that appear in the population which is increased from the cross. These different types involve many different kinds varying all the way from those types which are almost identical to the original parents through practically all possible variations between the two. The plant breeder's task is to find, among the many different kinds produced, one or more of the high-yielding types carrying other desirable characteristics such as stiffness of straw, high test weight, resistance to disease, etc.

Once he has made his final selection and has a type that he desires to have increased and released for use on farms he really has produced a new variety which is just as stable in its characteristics as any other standard variety already in existence. Therefore, hybridization in wheat, oats, soybeans, and other close pollinated crops, differs from corn. Consequently it is not necessary to go back and purchase new seed each year. The new crop can be handled just like any other standard variety.

Many questions are being asked concerning disease resistance. The Boone, Marion, Hancock. and Vanguard are all resistant to stem rust. In addition the Boone, Marion and Hancock are resistant to leaf (crown) rust and to smut. Neither parent of the Legacy carried rust or smut resistance and the cross is not recognized as having that character.

More than 1500 bushels of Marion oats are being distributed for seeding in Illinois in 1941. Supplies of both Boone and Marion will be available in Iowa for 1941 production.

Marion yielded 8.6 bushels above the average of all varieties at Urbana, and Columbia 6.6 bushels above. Gopher was 4.8 bushels above; Fort 3.4 bushel; Vanguard 1.9 bushel, Boone 1.1 bushel; Royal Scott 2.6 below; Hancock 7.3 below; Swedish Star 8. below.

**Stream of Gold**

Gold has been found in a little stream back of the college gymnasium of Bethany college in Bethany, W. Va. But the catch in it, according to Prof. J. S. Allen, is that the gold is in such minute quantities that its recovery would be impracticable.

# Public Relations Dept. To Become Important Farm Bureau Activity

During the last annual and monthly meetings of the Cook County Farm Bureau Executive Board, considerable discussion has been given to the desirability of establishing a public relations committee to more effectively handle a number of problems that are especially confronting Cook county farmers.

The DuPage County Farm Bureau has such a committee that has done very effective work, especially in matters of drainage and on the laying out of subdivisions in agricultural areas. They have expressed their willingness to work with the Cook County Farm Bureau where streams run from one county into the other.

In DuPage County the zoning ordinance has been used to more wisely locate and direct subdivisions. A number of subdivisions that are appearing in Cook County in more strictly agricultural areas are beginning to present numerous problems. In many cases the sewage disposal for subdivisions has not been laid out and farmers are finding that they are getting some of this sewage disposal into their own drains.

Rural schools are also being asked to care for extra numbers of pupils and there is a tendency on the part of residents of these subdivisions to want extraordinary types of school facilities whose expenses must be largely born by the farm lands and villages of the townships. These are problems of possibly requiring certain conditions to be met before subdivisions are established in the way of drainage and other public improvements. The Farm Bureau feels that it can be of service to its membership and the farmers of the county in this type of public relations work.

# *Sisalkraft Paper Keeps Eichholz Hot Bed Plants from Freezing*

"Recently we arranged a demonstration on the use of Sisalkraft paper as a covering for hot beds on the Henry Eichholz farm near Des Plaines," states Farm Adviser C. A. Hughes.

COVERING HOT BEDS

The object of this demonstration was to find out if Sisalkraft paper would be as effective as covering hot bed sash with canvas, manure, or straw for cold nights. After the Sisalkraft paper had been rolled out on top of the beds and weighted down with boards the weather accompanied us very well the evening of March 10 and 11 with zero weather ranging from 5 above to 5 below for two days time. No other covering was over these beds and examination of them showed that the plants came through in good shape without any freezing whatsoever.

Mr. Eichholz says that the Sisalkraft paper turned water, keeping the sash dry which is a further protection for cold. Also, it is easily rolled over the sash and unrolled and does not require a great deal of trouble like forking straw or other material on the sash that is dirty and messy. Also water frequently leaks through canvas, but the paper is very tough with a tar inner coating that is effective in turning water.

Since the paper is very inexpensive Mr. Eichholz feels that this is one of the best coverings for a hot bed that he has ever seen. Obviously it has many other uses such as covering a bed to hold plants back, covering cold frames and for sterilization and conducting heat into a bed.

We are quite sure that many of the gardeners in Cook county who have hot beds will be glad to know of this cheap way of covering them for cold nights. It is doubtful that we will ever strike much colder nights than March 10 and 11.

# Farm Bureau Gardners 50% For Evening Market

In order to find the attitude of its membership regarding an evening market or a 2 o'clock opening, farmers in the vegetable area were asked to express their opinion on present hours which are 4 to 10, or 2 to 10, or an evening market for a six weeks period—probably from 8 to 10. Those who marketed on Randolph Street expressed themselves as about 50% in favor of the evening market and 50% in favor of the 2 o'clock opening. A few were satisfied with the present hours and a few wished the combination of the evening market and the 2 o'clock opening.

In view of the fact that the membership was divided about equally on the question, the Farm Bureau marketing committee, of which Mr. E. A. Schoppe is chairman, has gone on record as favoring neither hour as a preference but if a 2 o'clock opening is granted, or an evening market is secured, or both, they will give their full cooperation in working with the administrators of the market to secure as good a market as is possible.

It is realized that there will be a number of difficulties to be surmounted. One of the worst will be the closing of the market from 10 to 2 or 4 in the morning. It will mean that farmers who fail to sell in the evening time will have to wait from 4 to 6 hours before the market is open. It is also realized that there will be objections to an evening market from the established commission merchants on the grounds that they are taxpayers in the city and this represents unfair competition. However, if an evening market for six weeks presents an opportunity to help move heavy crops and may possibly relieve the congestion in the morning, it is probable that this arrangement might be a good thing if it is administered effectively and farmers cooperate in holding their loads away from traffic and stay with their loads during the night hours. On the other hand there is a movement to shorten market hours, and it is probable that this may present some difficulty in getting an evening market approved.

In a recent study of comparative prices of sweet corn for 1938 until the 11th of July, 1939, when we had an evening market, and from July 11, 1939 through 1939 and 1940, when there was not an evening market, there was a difference of 10c per bag in favor of the morning market alone. This is when comparison is made with St. Louis. Perhaps Detroit might be a better market to compare with but figures are not available for that market.

Whether the evening market had anything to do with these prices is rather difficult to determine because so many other factors enter into the situation. However, it is apparent from a study of the graphs that were plotted on these prices that during the surplus season for 1938 and a part of 1939, Chicago usually ran 10c below St. Louis. For some reason after the evening market was discontinued Chicago prices for the balance of 1939 came up to the St. Louis level and stayed there for the balance of the season.

In 1940 the Chicago prices did not break quite so rapidly as they did in former years and they never went much below St. Louis. While there was some drought in the south part of the corn area in Chicago in 1940, the drought was much more severe in the St. Louis area, being almost as bad as in 1934 and 1936.

Some seem to think that the shorter hours of marketing created a better market and stimulated buying. Should an evening market be re-established close check will be kept on the trend of prices to see if we have a return to the former condition of a range of something like 10c below St. Louis.

"We are rather anxious to have a re-establishment of the evening market," states Farm Adviser C. A. Hughes, "to determine whether this is a factor in setting a lower price level for vegetables or not. At the present time we are undecided and only a test of this kind will give us the true condition of price making with longer or shorter marketing hours."

## A A A Sign-Up Heavier This Spring

From all reports coming in from the various townships it is apparent that the AAA sign-up is much heavier than it has been in any year past. There are probably a number of reasons for this heavy-sign-up. Due to the war farmers are more conscious than ever that they cannot depend on exporting surplus crops to Europe. It is obvious also that the corn under seal is piling up and surpluses cannot be continued indefinitely. Then, too, it is realized that quotas will probably be voted on this fall and the non-cooperator is likely to be in a bad position.

## *What About These New Oats?*

Farmers from all sections of Illinois are inquiring about new varieties of oats. The varieties most commonly mentioned are Legacy, Vanguard, Belgian, and Swedish Star. These oats were produced outside the Corn Belt and have been widely publicised by seed companies outside Illinois. The Boone, Hancock, and Marion were originally produced by Federal and State plant breeders.

One of the questions most frequently asked is, "Are they hybrid?" The Legacy, Vanguard, and Swedish Star, like Boone, Hancock and Marion are new varieties which are the results of crosses involving different varieties of oats.

When the plant breeder makes a cross between two varieties or types, he is laying out for himself a program involving a number of years of careful selection. During the first three to six years following the actual making of the cross, it is necessary for the breeder to select many different types of progeny that appear in the population which is increased from the cross. These different types involve many different kinds varying all the way from those types which are almost identical to the original parents through practically all possible variations between the two. The plant breeder's task is to find, among the many different kinds produced, one or more of the high-yielding types carrying other desirable characteristics such as stiffness of straw, high test weight, resistance to disease, etc.

Once he has made his final selection and has a type that he desires to have increased and released for use on farms he really has produced a new variety which is just as stable in its characteristics as any other standard variety already in existence. Therefore, hybridization in wheat, oats, soybeans, and other close pollinated crops, differs from corn. Consequently it is not necessary to go back and purchase new seed each year. The new crop can be handled just like any other standard variety.

Many questions are being asked concerning disease resistance. The Boone, Marion, Hancock, and Vanguard are all resistant to stem rust. In addition the Boone, Marion and Hancock are resistant to leaf (crown) rust and to smut. Neither parent of the Legacy carried rust or smut resistance and the cross is not recognized as having that character.

More than 1500 bushels of Marion oats are being distributed for seeding in Illinois in 1941. Supplies of both Boone and Marion will be available in Iowa for 1941 production.

Marion yielded 8.6 bushels above the average of all varieties at Urbana, and Columbia 6.6 bushels above. Gopher was 4.8 bushels above; Fort 3.4 bushel; Vanguard 1.9 bushel, Boone 1.1 bushel; Royal Scott 2.6 below; Hancock 7.2 below; Swedish Star 8. below.

**Stream of Gold**

Gold has been found in a little stream back of the college gymnasium of Bethany college in Bethany, W. Va. But the catch in it, according to Prof. J. S. Allen, is that the gold is in such minute quantities that its recovery would be impracticable.

# Public Relations Dept. To Become Important Farm Bureau Activity

During the last annual and monthly meetings of the Cook County Farm Bureau Executive Board, considerable discussion has been given to the desirability of establishing a public relations committee to more effectively handle a number of problems that are especially confronting Cook county farmers.

The DuPage County Farm Bureau has such a committee that has done very effective work, especially in matters of drainage and on the laying out of subdivisions in agricultural areas. They have expressed their willingness to work with the Cook County Farm Bureau where streams run from one county into the other.

In DuPage County the zoning ordinance has been used to more wisely locate and direct subdivisions. A number of subdivisions that are appearing in Cook County in more strictly agricultural areas are beginning to present numerous problems. In many cases the sewage disposal for subdivisions has not been laid out and farmers are finding that they are getting some of this sewage disposal into their own drains.

## One Killed at Higgins And River Rds. Saturday

An accident Saturday night surrounded by mystery as to just how it happened resulted in the death of one Chicagoan and the injury of the two other passengers.

William Staniec and two others were riding south on River rd. when, at the junction with Higgins rd., their car hit something and turned over. Staniec and the passengers were rushed to Northwestern hospital where the former died before regaining consciousness. The others could give no clue as to what they had hit.

An inquest held at Oehler's in Des Plaines Monday returned a verdict of accidental death.

### ESTATE ASKS $10,000 FOR DEATH IN AUTO ACCIDENT

The Trust Company of Chicago, administrator of the estate of the late Sigrid Lundin, who was fatally injured in a collision of cars January 7, last year at Lincoln and Cicero aves., Niles Center, has sued Stephen Wajciechowski for $10,000 damages for causing her death. She was a passenger in a car on Lincoln ave., which was hit by defendant's car running on Cicero ave. She was so badly injured she died Oct. 6, leaving a husband and children.

### SUES FOR $10,000 FOR 3-CAR MIXUP

Louis Eisenberg has sued Roy and Michael Tipman and Kathleen Higgins in Superior court for $10,000 damages for injuries sustained in a three car mixup at Golf and Rand rds., Feb. 9, last. He states he was driving on Golf rd. and stopped at Rand rd., to let traffic pass when his car was hit by the Tipman car going fast. It is claimed the Tipman car had to turn out because the Higgins car was in the way.

### GLENVIEW MOTORIST IN COLLISION AS HE TURNS

Hans Jorgenson, Glenview, collided last Wednesday on Lake ave. near Pfingsten rd. with Leonard Wodrich, Landwehr rd., when the former attempted a turn into a driveway.

Both cars were traveling west on Lake ave when Jorgenson attempted his turn. Wodrich, in the process of passing Jorgenson, hit the latter's car. Damage was confined to the autos.

### CAUGHT IN CAR DOOR, SEEKS $16,000 DAMAGES

Victor Soderstrom has sued L. and F. Stephens in Superior court for $10,000 damages for injuries sustained July 27 at Harms rd. and Simpson rd. He alleges he was near the car whose door was open and that the door was slammed shut and he was saught in the closing door and injured.

### NORTHFIELD MOTORIST STRIKES LIGHT POLE

Irvin Efflandt, Northfield, skidded into a light pole early Monday morning at the junction of Waukegan rd. and Lake ave., when he was cut off by an unknown motorist. The car was damaged considerably, though Efflandt was unhurt.

### FAIR WEATHER PROVES BAD LUCK FOR SALLY FAIRWEATHER

The fair weather Sunday brought many motorists to the highways, among them Mrs. Sally Fairweather of Evanston.

Mrs. Fairweather, driving east on Golf rd., crashed into the car of Edgar Goode, Chicago, who, driving south on Shermer with his wife and eleven year old daughter, had pulled out in front of the Fairweather auto.

The Goode auto turned over, injuring the passengers and necessitating their removal to Northwestern hospital in Des Plaines. The injuries were not serious.

### BENSENVILLE DRIVER UNHURT IN COLLISION

John Burchard of Bensenville escaped unhurt Saturday evening when he collided with another auto on Lawrence ave. just west of Harlem ave.

Burchard was driving east when Anton Sachtschale, Chicago insurance salesman parked on the side of the pavement, turned onto the highway directly in front of him. Burchard swerved but in vain.

Fellow workers found the body near a high tension wire with which Little is believed to have come in contact. He is survived by his wife and two small children.

### LAKE ZURICH WOMAN RUNS INTO POLE ON MILWAUKEE AVENUE

Mrs. Louise Leonard, Lake Zurich, ran into a pole along Milwaukee ave. just south of Dempster st., when she was cut off by another motorist last Tuesday and suffered a bruised ankle. Mrs. Leonard was taken to the nearest phone by the other autoist invilved, but he failed to give her his name.

## Music News And Views

by ELMER D. HERRICK

Did you know that the piano accordion could be used to great advantage with any high or grade school band? Many schools are adding them to their regular bands, not only for concert purposes, but for marching as well. With the mastery of a simple bass technique which is easily learned you can march and play as easily as any other band member; in fact, marching accordion bands are becoming more and more popular. Standard band numbers are having accordion parts added in many cases by the publishers because of the demand for this innovation and it has only started.

One of the new BMI popular tunes which has been catching on is "Toy Piano Minuet;" I mention it, because it is one of the few numbers in the vogue which beginning piano students may learn quite easily. It could also be worked into an admirable piano duet.

"High On a Windy Hill" ranks first place among the best sellers this week according to publishers lists and it's BMI, too. "Blue Echoes is another South American tune that is well up; BMI controls about 90% of the South American music which accounts for the increasing popularity of this type of song.

Peggy Keogh, of Prospect Heights, hails from Kentucky and calls herself a real hill-billy; she has the real hill-billy gift with a guitar, too, the way she handles her Hawaiian instrument. Her husband is a lawyer and a good one.

Donald Pelletier is a beginner on the accordion and Norman Stadtler is becoming an old timer at the game, but they both hope to play together at the spring concert of the Northwestern Accordion Band the last of April. They live quite near each other and have been buddies for a long time.

Howard Sporleder played his accordion for a golden wedding recently. He has an 80 bass and for a young fellow, handles it remarkably well. He and Wayne Kruse get together for a work out occasionally; they both live in Mt. Prospect.

## Wheeling Camp Royal Neighbors Lunch at Wenzlaffs

Members of Wheeling Camp Royal Neighbors, enjoyed their March meeting in two special ways. During the meeting an initiation ceremony was held to welcome a new neighbor, Mrs. George Evert.

After the meeting the camp was invited to the home of Neighbor Wenzlaff where a delicious luncheon was waiting for them.

Appropriate to the season, the tables were decorated in green with a centerpiece of carnations tinted in green. The variety of tasty foods kept the neighbors busy sampling each kind, while they forgot about the "extra pounds." A few songs concluded a perfect evening for the neighbors.

## Girl Scout News

Friday evening, March 21, was an important time for grade school members of Wheeling Troop Girl Scouts. A special meeting was held at the home of their leader, Mrs. L. P. Denoyer, commemorating the 29th anniversary of Girl Scouting in the U. S. A.

Thirteen members of the troop received their second class badges. One new member of the troop, Catherine Schmidt, was invested as a tenderfoot.

A candle-lighting ceremony was the climax of the "birthday party" and the girls brought their own birthday pennies as a contribution toward the Juliette Low Memorial Fund.

Melvin Becker is the latest of Wheeling boys to enter army ranks. Melvin was one of the thirty young men from this district who left for camp on Tuesday. Last Wednesday evening a group of friends gathered at the Becker home for a farewell party in Melvin's honor. On Sunday the family was invited to the home of relatives at Racine, Wisconsin.

Miss Dorothy Grandt returned home from Northwestern hospital, Des Plaines, on Monday, and is recovering nicely from her recent operation for appendicitis.

Miss Ruth Rockenbach enjoyed a two week auto trip to Florida, with her employers, the W. E. Adams of Buffalo Grove. During their stay in Florida they located between Palm Beach and Miami They returned home last Saturday, having had a very pleasant vacation.

The Mother's Study club will hold their next meeting on Friday, April 11, at the home of Mrs. John Day.

Robert Bingham, who entered selective service from Iowa, is now stationed at Fort Sill, Oklahoma.

Robert Hartmann, who is now stationed at Hawaii, writes favorably of his army life in the Islands. Robert is now doing clerical work in a commissary office which he likes very well and is an advancement for him in salary. The boys in service are finding their high school and college training a distinct advantage to them, even in military life. This should be an encouragement to our boys still in high school, who may be dissatisfied with what seems to them the dull routine of the classroom. After all, boys, our schools are really doors to opportunity, which in our land are offered to all who will use them, and are not restricted to a privileged few of the upper classes, as is the case in many of the nations.

Mrs. William Wiest and Miss Elsie Pieper were away on a three day vacation trip to Michigan this week, where they visited with friends near Detroit.

Master Harold Hodge celebrated his eighth birthday Saturday afternoon, March 22, with the help of 12 playmates, 4 girls and 8 boys. The party lasted from 2 until 5 o'clock and all the children had a very happy time.

## *Upper Grades Entertain P-TA*

Forty adults were present at the meeting of the Parents and Teachers association on Monday evening. The group voted to allow $25.00 toward expenses of two delegates to the state convention, naming the candidates for president and vice-president as delegates.

The nominating committee presented the following persons: president, Mrs. Troy Lee; vice president, Mrs. Ray Lesch; secretary, Miss Margaret Goss; treasurer, Mrs. Edward Wesolek. The election takes place at the next meeting.

The program was furnished by members of the four upper grades, on the theme of Citizenship. Accordion selections were played by Betty June Graff and Alice Ortegel. Essays on the subject "Citizenship in a Democracy" were read by seven members of the 7th and 8th grades and four members of 5th and 6th grades.

These children will all receive a small bronze citizenship medal with ribbons attached as follows for the 5th and 6th grades, blue ribbon, Jeanette Beck; red, Eugene Lesch; white, Robert Wiest and Harold Reitz. ## Music News And Views

by ELMER D. HERRICK

Did you know that the piano accordion could be used to great advantage with any high or grade school band? Many schools are adding them to their regular bands, not only for concert purposes, but for marching as well. With the mastery of a simple bass technique which is easily learned you can march and play as easily as any other band member; in fact, marching accordion bands are becoming more and more popular. Standard band numbers are having accordion parts added in many cases by the publishers because of the demand for this innovation and it has only started.

One of the new BMI popular tunes which has been catching on is "Toy Piano Minuet;" I mention it, because it is one of the few numbers in the vogue which beginning piano students may learn quite easily. It could also be worked into an admirable piano duet.

"High On a Windy Hill" ranks first place among the best sellers this week according to publishers lists and it's BMI, too. "Blue Echoes is another South American tune that is well up; BMI controls about 90% of the South American music which accounts for the increasing popularity of this type of song.

Peggy Keogh, of Prospect Heights, hails from Kentucky and calls herself a real hill-billy; she has the real hill-billy gift with a guitar, too, the way she handles her Hawaiian instrument. Her husband is a lawyer and a good one.

Donald Pelletier is a beginner on the accordion and Norman Stadtler is becoming an old timer at the game, but they both hope to play together at the spring concert of the Northwestern Accordion Band the last of April. They live quite near each other and have been buddies for a long time.

Howard Sporleder played his accordion for a golden wedding recently. He has an 80 bass and for a young fellow, handles it remarkably well. He and Wayne Kruse get together for a work out occasionally; they both live in Mt. Prospect.

## Wheeling Camp Royal Neighbors Lunch at Wenzlaffs

Members of Wheeling Camp Royal Neighbors, enjoyed their March meeting in two special ways. During the meeting an initiation ceremony was held to welcome a new neighbor, Mrs. George Evert.

After the meeting the camp was invited to the home of Neighbor Wenzlaff where a delicious luncheon was waiting for them.

Appropriate to the season, the tables were decorated in green with a centerpiece of carnations tinted in green. The variety of tasty foods kept the neighbors busy sampling each kind, while they forgot about the "extra pounds." A few songs concluded a perfect evening for the neighbors.

## Girl Scout News

Friday evening, March 21, was an important time for grade school members of Wheeling Troop Girl Scouts. A special meeting was held at the home of their leader, Mrs. L. P. Denoyer, commemorating the 29th anniversary of Girl Scouting in the U. S. A.

Thirteen members of the troop received their second class badges. One new member of the troop, Catherine Schmidt, was invested as a tenderfoot.

A candle-lighting ceremony was the climax of the "birthday party" and the girls brought their own birthday pennies as a contribution toward the Juliette Low Memorial Fund.

Melvin Becker is the latest of Wheeling boys to enter army ranks. Melvin was one of the thirty young men from this district who left for camp on Tuesday. Last Wednesday evening a group of friends gathered at the Becker home for a farewell party in Melvin's honor. On Sunday the family was invited to the home of relatives at Racine, Wisconsin.

Miss Dorothy Grandt returned home from Northwestern hospital, Des Plaines, on Monday, and is recovering nicely from her recent operation for appendicitis.

Miss Ruth Rockenbach enjoyed a two week auto trip to Florida with her employers, the W. E. Adams of Buffalo Grove. During their stay in Florida they located between Palm Beach and Miami. They returned home last Saturday, having had a very pleasant vacation.

The Mother's Study club will hold their next meeting on Friday, April 11, at the home of Mrs. John Day.

Robert Bingham, who entered selective service from Iowa, is now stationed at Fort Sill, Oklahoma.

Robert Hartmann, who is now stationed at Hawaii, writes favorably of his army life in the Islands. Robert is now doing clerical work in a commissary office which he likes very well and is an advancement for him in salary. The boys in service are finding their high school and college training a distinct advantage to them, even in military life. This should be an encouragement to our boys still in high school, who may be dissatisfied with what seems to them the dull routine of the classroom. After all, boys, our schools are really doors to opportunity, which in our land are offered to all who will use them, and are not restricted to a privileged few of the upper classes, as is the case in many of the nations.

Mrs. William Wiest and Miss Elsie Pieper were away on a three day vacation trip to Michigan this week, where they visited with friends near Detroit.

Master Harold Hodge celebrated his eighth birthday Saturday afternoon, March 22, with the help of 12 playmates, 4 girls and 8 boys. The party lasted from 2 until 5 o'clock and all the children had a very happy time.

The seventh and eighth grade awards were blue ribbon, Alice Ortegel; red, William Reitz, Victor Lesch; white, William Lee, Robert Reitz, Betty Graff and Howard Welflin.

The contestants gave the judges a real job, as they read their essays on which they had spent much effort and presented them in a convincing fashion.

Those who assisted in judging were Mrs. Henry Mayer, Miss Marilyn Miller and Messrs. Hans Schmidt, O. W. Ellwood, Fred Cargill, Marshall Balling and A. A. Fassbender.

# Township Elections Are Next Tuesday

## Only One Contest in Palatine

### All Voting to be Done at One Precinct

Tuesday, April 1, is the date of the township elections.

In Palatine township the voting for the entire township will be done at one polling place, at Michels garage, 107 N. Brockway st.

In the Palatine election there is only one contest and that is for the office of supervisor where John H. Meyer, present supervisor, is being opposed by William H. Schwankoff.

Melvin R. Heaver also appears on the independent ticket for constable, but as Palatine is really entitled to four constables and only three, George W. Meyer, Charles G. Folz and Wm. Kable are named on the Harmony ticket, all four will probably be issued certificates of election.

The following other candidates on the Harmony ticket are unopposed for re-election, George W. Howes for town clerk; Herman C. Deverman for assessor; Thomas C. Hart for collector; Henry Roper for highway commissioner; E. P. Steinbrinck, Frank R. Hartman, and John Senne for justices of the peace and Henry L. Moehling for school trustee.

The polls will be open from 6 a. m. to 5 p. m.

## Arthur H. Heimsoth Seeks Re-election as Elk Grove Town Clerk

Arthur H. Heimsoth, who has served 12 years as town clerk in Elk Grove township, is a candidate for re-election and is asking the support of the voters on the faithful service he has given to the township. A strenuous effort is being made to defeat him.

Mr. Heimsoth states that he is depending on the aid and support of his friends and those whom he has served in the past years. "It seems unjust to me," states Mr. Heimsoth, "to bring politics into township affairs. In my national politics I have always supported the very men who are today trying to defeat me. My opponent may have all qualifications to serve as a town clerk, but he has given little evidence that he really wants the job. He is merely the candidate of the group which is attempting to assume control of Elk Grove township. You will find my name in the first column on the Peoples Ticket, who are giving me their whole hearted support.

A. H. HEIMSOTH

**Southernmost City**

Magallanes, Chile, is the southernmost city in the world. It was formerly Punta Arenas.

ELK GROVE TOWNSHIP

## *Woman Candidate For Town Clerk*

OLGA WYTRYKUS, who is the first woman aspirant for a township office in Elk Grove, is an independent candidate for town clerk in that township. She is a graduate from the Arlington Heights high school and has lived practically all of her life in Elk Grove. She has a large acquaintance throughout the rural section of the township.

With the exception of Palatine all townships will have spirited elections next Tuesday. In some of them the election fights are wide open with breaks in the camps of the holdovers.

The more lucrative jobs, collector and highway commissioner, have brought out the majority of the independent candidates. However, in a few townships the jobs of justice of the peace and constable are being fought over. This is in sharp contrast to Schaumburg township where there are no candidates for either of those offices. This is the only exclusive farming township in the community and the emmoluments of office are small, even for the collectorship, which nets only slightly more than $200 a year.

**WHEELING TOWNSHIP**

In Wheeling township there is no opposition to the present supervisor, Gilbert Klehm; town clerk, Howard Helm; and assessor, J. Fred Meyer. There are three candidates for collector: Fred H. Lorenzen, William Annen and Gustav F. Heidorn. Wm. Annen, is the present collector, but is a candidate on an independent ticket, as is Mr. Heidorn. Mr. Lorenzen is the candidate on the regular ticket.

Floyd Dobbins, candidate for highway commissioner on the regular ticket, is opposing Cloice Weider, who is running independent.

Wheeling township at present only has two justices of the peace. They are William Weber and Carl M. Behrens. Five are to be elected. Other condidates for that position on the "regular" tcket are W. E. Fritz, William F. Laurance and Harvey Adams. Independent candidates are Herman F. Hinz, Anthony T. Scolaro and John W. Bowman.

There are the same number of constables as justices to be elected and there are the same number of candidates. Candidates on the "regular" ticket are Carl H. Skoog, Fred Hinz, Harold Lamb, Raymond Lesch and E. C. Stroker. The independent candidates are Archie S. LaSalle, Fred Heuer and Jack Clark.

John Schoenbeck is candidate for school trustee with no opposition.

**ELK GROVE TOWNSHIP**

In Elk Grove township the only present officials who have no opposition for re-election are Albert Wille, supervisor; Otto Busse, assessor; Geo. E. Whittenberg and Christ Trost, constable; and Geo. H. Scharringhausen, school trustee.

Arthur Heimsoth, town clerk has two opponents. They are Leslie K. Laird and Olga Wytrykus. Laird is associated with Louis W. Pohlman for tax collector and William L. Meier for highway commissioner under the "Better Government" ticket.

Albert Kraemer, present collector is running independent and Pohlman is his only opponent. Fred J. Bradley, whose name appears on the Kraemer ticket, is candidate for highway commissioner in opposition to Meier.

Walter W. Weiss and Willert Beer are candidates for justices of the peace. The third candidate is Alfred H. Botterman. Two are to be elected.

**SCHAUMBURG TOWNSHIP**

With three candidates for assessor and two for the jobs of township clerk and tax collector, Schaumburg township will poll a heavy vote next Tuesday. All of the names appear in one column and there is no party circle.

Fred Pfingsten is unopposed for supervisor and Frank Sporleder has no opponent for highway commissioner. Louis Redeker and Roger J. Kappa are candidates for township clerk.

Assessor candidates are Clifford G. Coope, Edward Straub and William Greve. Albert W. Berlin and Emil H. Freise are candidates for tax collector.

Two school trustees are to be elected, and there are two candidates, Louis F. Nerge and John W. Bierman.

**HANOVER TOWNSHIP**

There is only one contest in Hanover township. Edward A. Kral is opposing Henry Gromer, the present supervisor. The unopposed candidates are:

Henry L. Heine, highway commissioner.
Emil Hattendorf, assessor.
Henry Holtz, tax collector.
H. C. Thurnau, township clerk.
James J. Scheen, justice of the peace.
W. E. Bull and Frank Dewey, constables.
Otto Fees, school trustee.

## Exposes High Road Costs in Maine Township

John H. Boeckenhauer, who is candidate for road commissioner in Maine township has gathered some interesting figures comparing road maintenance costs of Maine township with the neighboring townships of Elk Grove and Wheeling.

Mr. Boeckenhauer has pledged himself to save the tax payers of Maine township upwards to 50% if he is elected. The figures are:

**Maine—10 Miles of Road**

| | |
|---|---|
| Commissioner | $1,700.00 |
| Labor on Road | 1,182.00 |
| Stone | 1,390.00 |

## Elk Grove Assessor Endorses Kraemer For Collector

Otto Busse, Elk Grove assessor, is asking his friends to cast their vote for Albert Kraemer, candidate for collector. Four years ago, both Mr. Busse and Mr. Kraemer were candidates for township office on the same ticket and both were elected. Mr. Busse says, "In my opinion Mr. Kraemer has proven his ability and emonstrated the service that he is able to give to the tax payers of Elk Grove. He deserves re-election."

## Bill Introduced for Aiding 12-grade Districts By Educational Tax Raise

A bill permitting 12-grade districts an educational tax rate of $1.75 and a building tax rate of 50c, without referendum, was introduced in the Legislature this week by Representatives Edward Hunter and David Hunter, both of Rockford.

According to Mr. Irving F. Pearson, executive secretary of the Illinois Educational association, "A rank injustice now exists in the maximum tax rate permitted without referendum to districts supporting twelve grades. Their maximum educational rate without referendum is but $1, while in non-high school areas a $1.75 rate is permitted without referendum, ($1 to the elementary district and 75c to the over-lying high-school district.)

"Areas having separate high-school districts are permitted a $2 educational rate without referendum ($1 to the elementary district and $1 to the over-lying high-school district.)

"Twelve-grade districts are disappearing because of discrimination in maximum tax rates permitted without referendum. In 1938, 141 unit districts existed in Illinois and today only 119 are left. The Legislature has solved this problem for one 12-grade district, Chicago, through special legislation called the 'pegged levy.' The legislature should come to the rescue of the downstate 12-grade districts by removing the present unfair discrimination."

Pearson pointed out a recent report of the Illinois Tax Commission, which states:

"From the standpoint of general administrative efficiency and economy, there is doubtless more to be said for unit school organization than ofr the dual system prevailing through much of the State. The trend in the direction of an increase in high school districts is thus to be regretted, especially since the tendency is probably in large part a result of tax rate limitations that discriminate against the twelve-grade units."

## Saves Money For Wheeling Taxpayers

by CLOICE WIEDER

When I was appointed to the office of Road Commissioner after the passing away of my predecessor, the only building owned by the township was aproximately 20 ft. x 30 ft. on land owned by the former commissioner. An acre of land was rented from the L. B. Anderson realty firm with the understanding that when the rent accruals had equalled the value of $375.00 plus interest a deed would be given the township for same. Approximately $100.00 is remaining on this agreement. The building owned by the township was moved to this new location at a cost of $75.00 and increased in size to 40 ft. x 42 ft. so as to be large enough to house all the township equipment, at a cost of $350.00.

**Trucks and Equipment**

The township in 1939 were the owners of two trucks, one a Ford 1930 pickup and a 1935 Dodge one-ton body. Neither of these could be used for hauling large quantities of stone so a Ford dump truck was purchased at a cost of $585.00. This truck has been hauling stone for the township for the past two years at approximately a saving of $1,000 per year. As the old roller owned by the township was obsolete a trade was made and for an additional $750.00 an auto patrol motor grader was purchased. The original cost of this type of roller being $5,300.00 and is the kind used exclusively by the Cook County Highway Dept. By purchasing this modern equipment the services of one man have been eliminated from the payrolls.

**Financial**

After my appointment to this office I received invoices for unpaid bills for approximately $1,500.00. During this last year the Cook County Collector has charged and deducted from tax collections some $500.00 for quadrennial and extension fees. After the payment of all the accounts, trucks, machinery and $275.00 on land rental, and also reducing the rate for road and bridge from 33 to 25 cents, there still remains a balance on hand of over a thousand dollars. Of this record I feel justly proud, and solicit the support of all independent voters.

# Township Elections Are Next Tuesday

## Only One Contest in Palatine

### All Voting to be Done at One Precinct

Tuesday, April 1, is the date of the township elections.

In Palatine township the voting for the entire township will be done at one polling place, at Michels garage, 107 N. Brockway st.

In the Palatine election there is only one contest and that is for the office of supervisor where John H. Meyer, present supervisor, is being opposed by William H. Schwankoff.

Melvin R. Heaver also appears on the independent ticket for constable, but as Palatine is really entitled to four constables and only three, George W. Meyer, Charles G. Folz and Wm. Kable are named on the Harmony ticket, all four will probably be issued certificates of election.

The following other candidates on the Harmony ticket are unopposed for re-election, George W. Howes for town clerk; Herman C. Deverman for assessor; Thomas C. Hart for collector; Henry Roper for highway commissioner; E. P. Steinbrinck, Frank R. Hartman, and John Senne for justices of the peace and Henry L. Moehling for school trustee.

The polls will be open from 6 a. m. to 5 p. m.

## Arthur H. Heimsoth Seeks Re-election as Elk Grove Town Clerk

Arthur H. Heimsoth, who has served 12 years as town clerk in Elk Grove township, is a candidate for re-election and is asking the support of the voters on the faithful service he has given to the township. A strenuous effort is being made to defeat him.

Mr. Heimsoth states that he is depending on the aid and support of his friends and those whom he has served in the past years. "It seems unjust to me," states Mr. Heimsoth, "to bring politics into township affairs. In my national politics I have always supported the very men who are today trying to defeat me. My opponent may have all qualifications to serve as a town clerk, but he has given little evidence that he really wants the job. He is merely the candidate of the group which is attempting to assume control of Elk Grove township. You will find my name in the first column on the Peoples Ticket, who are giving me their whole hearted support.

A. H. HEIMSOTH

**Southernmost City**

Magallanes, Chile, is the southernmost city in the world. It was formerly Punta Arenas.

ELK GROVE TOWNSHIP

## *Woman Candidate For Town Clerk*

OLGA WYTRYKUS, who is the first woman aspirant for a township office in Elk Grove, is an independent candidate for town clerk in that township. She is a graduate from the Arlington Heights high school and has lived practically all of her life in Elk Grove. She has a large acquaintance throughout the rural section of the township.

With the exception of Palatine all townships will have spirited elections next Tuesday. In some of them the election fights are wide open with breaks in the camps of the holdovers.

The more lucrative jobs, collector and highway commissioner, have brought out the majority of the independent candidates. However, in a few townships the jobs of justice of the peace and constable are being fought over. This is in sharp contrast to Schaumburg township where there are no candidates for either of those offices. This is the only exclusive farming township in the community and the emmoluments of office are small, even for the collectorship, which nets only slightly more than $200 a year.

WHEELING TOWNSHIP

In Wheeling township there is no opposition to the present supervisor, Gilbert Klehm; town clerk, Howard Helm; and assessor, J. Fred Meyer. There are three candidates for collector: Fred H. Lorenzen, William Annen and Gustav F. Heidorn. Wm. Annen, is the present collector, but is a candidate on an independent ticket, as is Mr. Heidorn. Mr. Lorenzen is the candidate on the regular ticket.

Floyd Dobbins, candidate for highway commissioner on the regular ticket, is opposing Cloice Weider, who is running independent.

Wheeling township at present only has two justices of the peace. They are William Weber and Carl M. Behrens. Five are to be elected. Other condidates for that position on the "regular" tcket are W. E. Fritz, William F. Laurance and Harvey Adams. Independent candidates are Herman F. Hinz, Anthony T. Scolaro and John W. Bowman.

There are the same number of constables as justices to be elected and there are the same number of candidates. Candidates on the "regular" ticket are Carl H. Skoog, Fred Hinz, Harold Lamb, Raymond Lesch and E. C. Stroker. The independent candidates are Archie S. LaSalle, Fred Heuer and Jack Clark.

John Schoenbeck is candidate for school trustee with no opposition.

ELK GROVE TOWNSHIP

In Elk Grove township the only present officials who have no opposition for re-election are Albert Wille, supervisor; Otto Busse, assessor; Geo. E. Whittenberg and Christ Trost, constable; and Geo. H. Scharringhausen, school trustee.

Arthur Heimsoth, town clerk has two opponents. They are Leslie K. Laird and Olga Wytrykus. Laird is associated with Louis W. Pohlman for tax collector and William L. Meier for highway commissioner under the "Better Government" ticket.

Albert Kraemer, present collector is running independent and Pohlman is his only opponent. Fred J. Bradley, whose name appears on the Kraemer ticket, is candidate for highway commissioner in opposition to Meier.

Walter W. Weiss and Willert Beer are candidates for justices of the peace. The third candidate is Alfred H. Botterman. Two are to be elected.

SCHAUMBURG TOWNSHIP

With three candidates for assessor and two for the jobs of township clerk and tax collector, Schaumburg township will poll a heavy vote next Tuesday. All of the names appear in one column and there is no party circle.

Fred Pfingsten is unopposed for supervisor and Frank Sporleder has no opponent for highway commissioner. Louis Redeker and Roger J. Kappa are candidates for township clerk.

Assessor candidates are Clifford G. Coope, Edward Straub and William Greve. Albert W. Berlin and Emil H. Freise are candidates for tax collector.

Two school trustees are to be elected, and there are two candidates, Louis F. Nerge and John W. Bierman.

HANOVER TOWNSHIP

There is only one contest in Hanover township. Edward A. Kral is opposing Henry Gromer, the present supervisor. The unopposed candidates are:

Henry L. Heine, highway commissioner.
Emil Hattendorf, assessor.
Henry Holtz, tax collector.
H. C. Thurnau, township clerk.
James J. Scheen, justice of the peace.
W. E. Bull and Frank Dewey, constables.
Otto Fees, school trustee.

**EASY TO TAKE**

Favorite Pork and Dumplings

Doesn't that sound like the sort of normal dinner any family would find it easy to take? You'd never suspect it of being a health meal, would you? Yet it's crammed full of vitamins, minerals and other food elements that are necessary for good health.

**There're Vitamins In The Foods You Like**

Lots of people seem to think that vitamins and minerals are as dreary as gray flannel . . . and that they are found only in the least enjoyable of foods, prepared in the most monotonous and uninteresting ways. This has always seemed to me most unfortunate . . . because vitamins and minerals are in lots of thoroughly enjoyable foods too. Bananas, oranges, apples, lean pork, cheese, eggs, milk, cream, butter, white potatoes, sweet potatoes, tomatoes, green peppers and strawberries . . . as well as in the spinach, cabbage, carrots, liver and prunes we're continually being told are "good for us".

However, these less popular foods can be made tempting and pleasant to eat. Their bad reputation is largely due to a lack of understanding and poor cooking.

**Easy and Economical Too**

But we'll discuss this more thoroughly some other time. Right now we are interested in this dinner, which in addition to being healthful and enjoyable, is also easy to prepare and decidedly economical.

It's a "top-of-the-stove" dinner. You won't need the oven. The dessert is one that can be prepared in the morning, because there is quite a little to look after at the last minute with the dumplings and the corn . . . so we don't want to be distracted with making a dessert too.

Here is the recipe for the Pork and Dumplings:

**FAVORITE PORK AND DUMPLINGS**

Buy 6 pork steaks (or chops). Brown these on both sides in a hot skillet with a little cut up onion for flavor. Season well with salt and pepper. Add just enough water to cover the bottom of the pan, and cook over low heat until the meat is tender . . . about ½ hour.

Add more water so that there will be plenty of steam to cook the dumplings, and also sufficient liquid for gravy. In the meantime make your dumplings.

**Dumplings**

2 cups sifted all-purpose flour
½ tsp. salt
4 tsp. baking powder
1 tbsp. shortening
¾ to 1 cup milk

Sift the flour, baking powder and salt together. Cut in the shortening with a pastry blender or two knives. Add the milk to make a soft dough and drop by spoonfuls on the meat. Be sure that the liquid is boiling at this time.

Now cover tightly and cook for 15 to 18 minutes without lifting the cover.

Remove the meat and dumplings to a hot serving platter and keep hot while preparing the gravy.

**For Gravy**

Stir a little flour-and-water paste into the liquid in the skillet. Cook until thickened . . . stirring constantly. Season with salt and pepper, if desired. Pour the gravy around the meat and dumplings on the platter, and serve immediately.

This makes 6 servings.

## Chicago Flower Show To Open at Navy Pier

March 28 at 6 P. M. the Garden Club of Illinois will open the doors of its fifteenth annual Chicago Flower Show at Navy Pier to the delight of the many thousands of visitors, and to the credit of a small group of women who have worked from November to April to make this spectacle a contribution to the city of Chicago.

The attractive houses that background the gardens fit into the theme of the show "Modern Trends." Definitely modern, fresh as a spring breeze, they are reminiscent of so many of the beautiful small homes that are being built today. They will provide a suitable background for the many new ideas in gardening that will be shown.

The entrance, as usual, will be a spectacle to lift the spirits of the visitor, and to provide a sharp contrast to the drab world outside. This year a great pergola, dripping with bouganvillia will stretch across the Pier, and beneath it, the path to the exhibits will be along a ninety foot pool. This pool will be planted with extraordinary plant material, grown by the Chicago Parks District.

Beyond, a street of houses with their gardens, garden rooms, porches, planted paths, balconies, terraces, border plantings, foundation plantings, will give the answer to many a gardening problem, while providing a vista of summer color and gaiety.

A great deal of water and water features will be introduced this year. The great pool at the entrance will be recalled by another pool, more informal in feeling further on, and at the end of the garden area will be a rustic waterfall, surrounded by wood land gardens, and a bit of the forest preserve, Chicago's great woodland garden, brought indoors. The exhibit of the Forest Preserve District of Cook County, year after year stands unsurpassed in any other show in the country.

Advance tickets for 50c are available at Sieburg's Drug Store Arlington Heights, until Saturday morning. At the door, tickets will be 75 cents.

Stir a little flour-and-water paste into the liquid in the skillet. Cook until thickened . . . stirring constantly. Season with salt and pepper, if desired. Pour the gravy around the meat and dumplings on the platter, and serve immediately.

This makes 6 servings.

This year a great pergola, dripping with bouganvillia will stretch across the Pier, and beneath it, the path to the exhibits will be along a ninety foot pool. This pool will be planted with extraordinary plant material, grown by the Chicago Parks District.

Beyond, a street of houses with their gardens, garden rooms, porches, planted paths, balconies, terraces, border plantings, foundation plantings, will give the answer to many a gardening problem, while providing a vista of summer color and gaiety.

A great deal of water and water features will be introduced this year. The great pool at the entrance will be recalled by another pool, more informal in feeling further on, and at the end of the garden area will be a rustic waterfall, surrounded by wood land gardens, and a bit of the forest preserve, Chicago's great woodland garden, brought indoors. The exhibit of the Forest Preserve District of Cook County, year after year stands unsurpassed in any other show in the country.

Advance tickets for 50c are available at Sieburg's Drug Store Arlington Heights, until Saturday morning. At the door, tickets will be 75 cents.

# Legion Auxiliary Has A Heart for Child Welfare

Child welfare is an integral part of the work of the American Legion auxiliary throughout the state and Arlington Heights unit has taken a prominent part in doing its share in this work. Chirstmas time is the season for the biggest program in welfare work and the above scene shows how some of the 1,815 children in state institutions were remembered last Christmas time through the aid of legion auxiliary units. The home of the little tots shown above are at the Illinois Sailors and Soldiers home at Normal. Arlington Heights unit sent to these children 200 chicklets, 2 large dolls, scores of home made doll clothes and $700 worth of cosmetics to this home, as well as a sweater and cosmetics to the girl they are sponsoring at Normal. Candy, handkerchiefs and 100 valentines were sent in February.

Mr. and Mrs. Huntley and family of Minneapolis, Minn., have located in Arlington Heights and are living at 1108 No. Dunton ave.

## Tom Flemming Wins Honors in Loyola Swim Meet

Tom Flemming of Arlington a student at Loyola university, was a member of the undefeated team of Loyola University, which competed in the recent swimming meet finals. Tom won all races in which he competed, including relay races and fifty yard free style.

Mrs. John Kumler was hostess to a group of friends on Wednesday afternoon, in honor of Mrs. Johnson of Omaha, Nebraska, who is a guest at the home of her daughter, Mrs. George Doyle. Another party given in honor of Mrs. Johnson, was a luncheon given on Friday by Mrs. D. R. Rippey, when twelve friends were her guests.

Mrs. Paul Collins was hostess to her bridge club for dessert and cards on Thursday afternoon.

## Legion Auxiliary Tells Importance Of Child Welfare

Child Welfare is the topic for the next meeting of Merle Guild Unit No. 208 of the American Legion auxiliary of Arlington Heights which will be held at the home of Mrs. Albert Russell, 114 East Euclid on Tuesday, April 1, at 8 p. m. April is usually dedicated to child welfare, a short program, will follow the regular business meeting. Dr. Paul Bostian will speak to the members on the "Dental Clinic" and Mrs. N. Pino will speak on the needs of the children in our community.

Child Welfare is a year around program. Children are in need of warm clothing, food, medical care and a kindly interest every month of the year. The members of Merle Guild Unit have pledged themselves to help those in need, whether they are in institutions or private homes. One of their main objectives is to organize the strength of the auxiliary in the interest of child welfare and to enlist public attention and awaken public conscience to child welfare needs.

The auxiliary is also vitally interested in the proper legislation relative to child welfare. Every member of Merle Guild Unit at a recent meeting sent four cards to each state representative at Springfield urging the passage of the bill "Aid to Dependent Children."

The welfare of the children in Arlington Heights has been one of the main objectives of the local unit. Many children have been given assistance and aid has been rendered in many homes. One gallon of cod liver oil was recently purchased and distributed by Mrs Pino to those in need of it. Money was donated to the candy fund at Christmas time. A contribution was sent to the Infantile Paralysis fund. The dental clinic and the child welfare clinic were both enriched by contributions of the auxiliary.

Merle Guild Unit tries to live up to the "Childrens Charter." For every child spiritual and moral training to help him to stand firm under the pressure of life.

**Auxiliary Objectives**

For every child a home and, that love and security which a home provides.

For every child health protection from birth through adolescence. Promotion of health, including health instruction and health programs.

For every child a community which recognizes and plans for his needs, protects him against physical dangers, moral hazards, and disease.

For every child trained, full time public health officials, sanitary inspection and skilled workers.

For every child public welfare service for relief, aid, and guidance of children in special need due to poverty, misfortune and for the protection of children from neglect or moral hazard.

For every child these rights regardless of race or color or situation wherever he may live under the protection of the American flag.

Such are the objectives of Merle Guild Unit No. 208 of the American Legion Auxiliary.

## Important School Legislation To Come Before House

by EDITH ATKINSON

Many important issues affecting public schools will come before the Sixty-second General Assembly, which now is in session.

An unusual amount of hard work has been going on in the background in preparing legislative programs affecting schools. Many of the bills are still in legislative committees, and an active interest on the part of educators and interested citizens wil keep these bills from dying in committee.

A number of state-wide educational groups, including the Illinois Congress of Parents and Teachers, the Illinois State School Board Association, and the Illinois State Education Association, are working for these bills, and there are several that are of vital interest to the schools of the village.

Included is House Bill 226, Edwards and David Hunter, amends Sec. 211¾ to raise total state-supported level per elementary attendance pupil from $51 to $56 by increasing equalization item by $5, and to provide a $5 flat grant per high-school attendance pupil (but retaining the present $80 state-supported level per high school pupil in equalized districts).

The State School Fund is derived from the receipts of the state sales tax. When we consider the large amount of sales tax paid in every county of the state, the small increase in state aid asked for the schools is certainly not excessive.

Strong opposition is developing to the bill, especially to the provision which grants $5.00 per pupil to all high schools. Every high school district is entitled to at least a small share of the sales tax aid by its citizens. The flat-grant will be a unform distribution of state funds and it will help to relieve the local tax burden. The bill also continues special aid for financially weak high school districts.

Another important bill expected to come before the General Assembly but which has not as yet been introduced is one on handicapped children. Once more it will be necessary to try to get adequate state support for appropriate education of delinquent, deaf, blind, crippled, truant, incorrigible, and otherwise handicapped children.

It is estimated by the department of Public Instruction that there are in Illinois over 96,000 handicapped children for whom educational adjustment should be made. Under legislation passed in 1939 the state is paying its share of the cost of educating 6,000 of these.

The excess costs involved in the special education of cardiac cases, epileptics, tubercular children, speech defectives, and the mentally retarded, remain yet to be cared for. Many persons believe that the administration of special aid in the education of handicapped children should center in the office of the Superintendent of Public Instruction rather than in the Department of Public Welfare.

All public spirited citizens are asked to support these bills by writing letters to their local representatives at Springfield. Following are the names and addresses of the members of the 62nd General Assembly of the State of Illinois:

Senator Arthur J. Bidwill, 1403 Bonnie Brae, River Forest, Ill.

Representative Emmett McGrath, 4157 Madison ave., Brookfield, Ill.

Representative Bernice Van der Vries, 968 Pine st., Winnetka, Ill.

Representative Arthur W. Sprague, 334 S. LaGrange rd., LaGrange, Ill.

The Legislature usually meets Tuesday, Wednesday and Thursday. The rest of the time the members are usually at their homes or offices where you can readily reach them by mail or telephone.

## American Legion Auxiliary Notes

Tuesday evening, April 1, the American Legion Auxiliary will meet at the home of Mrs. Albert Russell, Northwest corner of State rd. and Euclid ave. The program will be in charge of Mrs. Victor Pecchia, child welfare chairman. The group enjoyed a pleasant social afternoon at the home of Mrs. Joseph Wisersky Tuesday, knitting for the Red Cross which is progressing steadily.

## Card Party for Red Cross Benefit Set for April 23

Members of the committee to raise funds for the local Red Cross production unit and the National Red Cross met Monday morning at the home of Mrs. Marvin Tackett, co-chairman of the committee with Mrs. H. T. Winterbauer, to complete plans for an American Red Cross benefit card party to be held Wednesday, April 23, at 1:00 p. m. at the Arlington Heights field house.

Lavish and numerous door prizes are being secured by Mrs. Kenneth Heimlich and her committee, and Mrs. Sam Braden, chairman of table arrangements committee, advises that pinochle and five hundred, as well as bridge decks of cards, will be provided. Mrs. Ray Kroc, chairman of the table prize committee, promises the card players something unusually attractive and novel in the way of table prizes. Other committee chairmen are: Mrs. Hugh Nichols, dessert; Mrs. Wallace Jacobus, card tables; and Mrs. N. K. Barr, publicity.

**Tickets On Sale**

Mrs. Hersal Day, ticket chairman, has tickets available at this time and they may be procured from her or any member of the committee: Mesdames Deloss Grant, Stanley Wilkins, W. G. Franke, G. Rex Volz, Charles F. Bloecker, D. R. Rippey, R. C. Haase, M. W. Grigsby, I. T. Rinker, and Charles Bates.

Twenty-five percent of the profit of the card party will be allocated to the local Red Cross production unit to meet the expenses of production materials such as thread, needles, fasteners, etc., and the remainder will be sent to the national Red Cross office which supplies the yarns and materials for the workers at the local unit.

Mr. and Mrs. Art McElhose were hosts to a group of friends for dessert and cards on Saturday evening. Mr. Charles McElhose and Mrs. Arthur Ashcraft received high honors for the evening.

## Finger Print Expert to Appear At Woman's Club

The next meeting of the Arlington Heights Woman's club will be held on April 2 in the Arlington Heights field house, when Capt. Wm. A. Rogers, finger print expert will be present to give the program for the afternoon.

Preceding the regular meeting, the last book review of the club year will be given, starting at 1:30 p. m., when Mrs. B. C. Sherwood will review "Not For the Meek" by Elizabeth Dewing Kaup.

## St. James Ladies Guild to Give Card Party

The St. James Ladies Guild will meet Monday night at the school hall when they will discuss plans for their Easter Monday card party, which will be held on April 14 in the Parish hall at 8 p. m. Table prizes will be awarded and refreshments will be served and tickets are on sale at 35c each.

Another important bill expected to come before the General Assembly but which has not as yet been introduced is one on handicapped children. Once more it will be necessary to try to get adequate state support for appropriate education of delinquent, deaf, blind, crippled, truant, incorrigible, and otherwise handicapped children.

It is estimated by the department of Public Instruction that there are in Illinois over 96,000 handicapped children for whom educational adjustment should be made. Under legislation passed in 1939 the state is paying its share of the cost of educating 6,000 of these.

The excess costs involved in the special education of cardiac cases, epileptics, tubercular children, speech defectives, and the mentally retarded, remain yet to be cared for. Many persons believe that the administration of special aid in the education of handicapped children should center in the office of the Superintendent of Public Instruction rather than in the Department of Public Welfare.

All public spirited citizens are asked to support these bills by writing letters to their local representatives at Springfield. Following are the names and addresses of the members of the 62nd General Assembly of the State of Illinois:

Senator Arthur J. Bidwill, 1403 Bonnie Brae, River Forest, Ill.

Representative Emmett McGrath, 4157 Madison ave., Brookfield, Ill.

Representative Bernice Van der Vries, 968 Pine st., Winnetka, Ill.

Representative Arthur W. Sprague, 334 S. LaGrange rd., LaGrange, Ill.

The Legislature usually meets Tuesday, Wednesday and Thursday. The rest of the time the members are usually at their homes or offices where you can readily reach them by mail or telephone.

**A REPORT *to America***

The Ford Motor Company's business has always been to serve the needs of the American people. In providing them with low-cost transportation for the past 38 years, we have developed one of the country's largest and most useful industrial units. During a national emergency, we feel that these facilities should be devoted without reserve to our country's needs. Toward that end we started rolling months ago, with these results:

1 A $21,000,000 Ford airplane engine factory, started only 6 months ago, is nearly completed. Production will start with an initial order for 4,236 eighteen cylinder, air-cooled, double-row, radial engines.

2 We are building a new $800,000 Ford magnesium alloy foundry, one of the few in the country. It is already producing lightweight airplane engine castings.

3 Army reconnaissance cars — military vehicles of an entirely new type — are rolling off special Ford assembly lines at the rate of more than 600 a month. We have produced Army staff cars and bomber service trucks.

4 The government has given the "go-ahead" and work is now under way for the fast construction of an $11,000,000 Ford plant to produce bomber airframe assemblies by mass production methods.

5 Several months ago work was started, on our own initiative, on an entirely new 1500 horsepower airplane engine especially designed for mass production. This engine is now in the test stage and plans are being developed for producing it in large quantities when and if needed.

6 A Ford aircraft apprentice school has been established, to train 2000 students at a time.

That is a report of progress to date.

The experience and facilities of this company can be used to do much of the job which America now needs to get done in a hurry.

Our way of working, which avoids all possible red tape, enables us to get results and get them fast. This benefits users of our products and workers who produce them.

We are ready to make anything we know how to make, to make it to the limit of our capacity if need be, to make it as fast as we can go, and to start the next job whenever our country asks us to. And to this end, we know we have the full confidence and loyal support of the workmen throughout our plants.

The Robert Rankines have returned to their home in Prospect Heights after a three weeks stay at the home of Mr. R. Rankine's parents, Mr. and Mrs. Thos. Rankine of Chicago. Mrs. Thos. She enjoyed herself as did those who stayed in Chicago.

Saturday evening Mr. and Mrs. Chas. Darfler entertained Mr. and Mrs. Edw. Vallely and Mr. and Mrs. H. Rice, the latter of Chicago, at a Ping Pong party. Needless to say the folks had a grand time.

Little Dennis Barry is enjoying a vacation at the home of his parental grandparents on the south side of Chicago, and I'll say we already miss the little rascal.

Niemann, of Chicago, later Mr. Robertson joined them at the Niemann home for dinner and as usual the girls trimmed the boys in a good game of pinochle. Friday evening Mr. and Mrs. Jos. F. Orose entertained Mr. and Mrs. Ray Kelly of Chicago.

Mr. and Mrs. Roy C. Bolt entertained Mr. and Mrs. A. Nelson of Chicago. We are sorry to report that little Martha Bolt has been ill, but is now feeling much better.

Mr. Wm. Spears is now laid up with a cold, while his mother and mother-in-law are also ill, we hope they will soon recover, as they have been having quite a siege of illness at their home recently.

Granny Matz, the maternal grandmother of the Hartke children paid the family a week-end visit which helped to brighten up a rather hectic week-end which really began Thursday evening when little Holly became ill and Heather tried to come down with bronchial pneumonia. Fortunately both of the children are feeling much better. Roy had a harrowing experience returning with prescriptions, the lights of his car burned out and as he was about to turn into Clarendon off Elmhurst a car descending upon him with bright lights ran him into the culvert where the car had to remain until morning when Lamb's tow truck hoisted it out. All this in one night was just too much.

Mrs. Ruth Ledyard celebrated her birthday on Saturday by having Mr. and Mrs. F. Orr and family for dinner. On Sunday, Mr. and Mrs. Chas. Ledyard entertained Mr. and Mrs. R. Tuesday afternoon Anne entertained a few of her north side neighbors at a lovely dessert luncheon. After lunch the ladies had a grand time trying to play bridge between the snatches of gossip.

Sunday afternoon Mr. and Mrs. Fred Schneider of Chicago paid a surprise visit at the Nielsen home.

Wednesday afternoon Mrs. Rauen drove Mrs. Anne Nielsen and Mrs. Betty McDonald down to Elmhurst hospital where they visited Mrs. Vi Danielson, and found her feeling pretty good, after her serious operation. It is expected that Vi will be home during this week-end.

Mrs. T. M. Holmes returned from Evanston hospital on Tuesday, where it had been necessary for her to spend about ten days, after a very bad fall while she had been downtown enjoying dinner with her husband on St. Patricks day. The fall resulted in two broken vertebraes. We wish Mrs. Holmes a speedy recovery and hope to see her up and around real soon.

Sunday afternoon Mr. Eddie Dowling and his new bride visited with his old friends, Harry and Dick Steele, and, as usual, had a grand time, since the Steeles and Eddie are like "one happy family." During Sunday afternoon Mr. and Mrs. Dietrich, of Chicago, paid a surprise visit at the Steeles, and to say that Dick was caught "napping" would be putting it mildly.

Tuesday was such a beautiful day that Mr. Carleton Smith, Mr. Harold Lamb, and Herman Hammerl, could not resist the temptation to drive up to Lake Marie and try their hand at fishing, but unfortunately the "Sailfish" were not biting. Better luck next time, boys.

Mr. and Mrs. Les Kercher are sporting a nice brand new Chevrolet. We certainly wish them lots of luck and pleasure with their new car.

Wednesday evening Mr. and Mrs. Kercher entertained the Weekly Get-together club, with the regular members, Mr. and Mrs. Jim Nielsen, Mr. and Mrs. Jim Jackson, and Mr. and Mrs. Carl Ehrlick in attendance.

Mrs. Alice Jackson entertained her bridge club on Friday evening when Jean Ellison, Eileen Bellinger, Ethel Jensen, Ethel Zeller, Elsie Vogt, Irene Gall, Irene Nelson, and Marion Dautel of Chicago, drove out and had a grand time.

Thursday evening two of Alice Jackson's former office friends, Harriett and Goldie, enjoyed dinner with Jim and Alice and later Jim escorted the ladies to the Northwestern University auditorium, where they witnessed the Waa-Mu Musical show, presented by members of Jim's Fraternity.

Congratulations to Mr. and Mrs. Steve Schramek who celebrated their 21st wedding anniversary March 27, also to Mr. and Mrs. George Beuhrer who celebrated their wedding anniversary the latter part of this month.

Edward F. Mueller, clerk of District 23 school board, has not been enjoying an enforced vacation resulting from an infection to his hands. He was first kept home from his employment Jan. 10, with trouble in his left arm. After three weeks, he returned to work when an infection developed in the opposite hand. Physicians unable to definitely locate the trouble, have advised him to stop machine work.

# Mac Says-

by GERALD A. MC ELROY

Morton won the state championship the hard way. To be paired with Centralia in the opening game of the finals at Champaign appeared to be the end of the trail for the suburban school but they displayed great ball in upsetting the favorites by one point. It was the cool steady playing of Morton that marks them as champs. They were confident but not cocky. They played smart ball all the time. They took advantage of their opponent's weak spots. They had the best balanced team in the state. To see them win both of their games at Champaign by one point did not seem to us as any sign of luck. In fact the score was no indication of their all round superiority in each of the games they won through the Elgin quarter finals and the Champaign finals.

**Centralia Had Off Night**

Yet it is our conviction that Centralia would beat Morton nine out of 10 times. The time they met was just that 10th time. Centralia shot 27 times before getting their first field goal, which came just 30 seconds before the half. In spite of this ice cold shooting they lost by only one point to the state champs. In the final game they looked better than Urbana, but still had not Fred Green, Urbana center, been lost on fouls it is likely that Morton would have lost. Morton went through the toughest lineup of tournaments to get to the state. The Glenbard regional with Proviso, York, LaGrange, Argo, and Leyden was just as tough as the highly rated Woodstock regional. Morton had one of their toughest hurdles in the whole series at Waukegan in the sectional when they beat Dundee 33-30. They really hit their stride after this game. The teams at the Elgin quarter finals were no set ups.

**Two Styles of Ball**

The state tournament saw two distinct styles of basketball. Morton and Urbana played a slower ball possession game depending upon good ball handling and passing to get the ball in a position for good shots. Centralia and Canton played the fire wagon type of fast break with long shots and shots taken on the run. These two teams played little defense in their consolation game, but gave the crowd plenty of thrills by their speed and shooting ability. The tournament proved that extremes in style of play are least successful.

**Eddleman A Real Star**

Eddleman was everything that has been said of him. We saw him on two occasions in the final quarter against Morton take a defensive rebound and dribble the whole way through the opposition to score. He is a great all round player in every respect. Centralia had the least team play of any good outfit we have seen this year. After they got the ball in the scoring zone it became a case of individual offense until the ball was lost or a basket scored. They seemed to have no set plays or system. It was just a fast break or a long shot. And Eddleman was not the only star on the team. It was a team of stars. While Eddleman was trying to break his old record of 24 points in a state tournament game and managing to tie it his team mate Klostermann was scoring 20. Neither aided the other in their scoring. When either got the ball he faked, dribbled, shot and rebounded in an individual set of offensive maneuvers.

**Green Outscores Eddleman**

Green of Urbana, who led a team to the finals that had been beaten 10 times during the season, was the real tournament scorer. In the four games of the qaurter final and final rounds the big six foot five inch center scored 86 points to outpoint the great Eddleman. The three outstanding boys of the tournament were Green of Urbana, Eddleman of Centralia and Strumill of Morton.

**Picks Three of the Four**

Before the tournament series ever started back in February, Pat Harmon of the Champaign News-Gazette said that the four big C teams were his best bets. He referred to Cicero, Centralia, Canton, and Champaign. He only missed in the case of Champaign and it was neighboring Urbana that beat Champaign to get the spot in the select quartet.

Murphy, sports editor of the Canton paper, is the only writer we know who picked Morton to win the state tournament before the finals started.

**Illinois Needs a Field House**

Along with other sport writers we attended a banquet Saturday night given by the University of Illinois athletic department at the Champaign country club. At this dinner the chief topics of conversation were the questions of a four or a 16 team state final tournament and of the possibiilties of the state university getting a field house to help solve the problem of accommodating the state tournament crowds and the expanding athletic program of the university. State universities in surrounding states, less wealthy than Illinois, have field houses where they can seat 13,000 fans at state tournamests and university athletic contests. Illinois certainly needs one even if there were no state tournament angle to be considered.

**Hold Sports Clinics**

Visiting coaches at the state tournament found their time between evening sessions well taken care of by the University. Friday afternoon Coaches Johnson and Osborne put on a track clinic with demonstrations by Illinois athletes. On Friday spring football practice kept the coaches occupied.

**A Coincidence**

Down at the Elgin quarter finals we found our seats right behind Sam England and Wade Steele, the Leyden coaches. Imagine our surprise to find our seats at Champaign right behind the same gentlemen. We wonder what the odds would be against that happening.

**Champs Beaten in Regionals**

For two years in a row the state champ has been a team that was defeated in the regional finals. Granite City lost to Wood River on the way up last year and we believe that Herrin the runner up lost to Marion. This year Morton was beaten by Proviso in the regional final by 14 points while Urbana was trimmed by little Homer. Another unusual fact is that for two years in a row the state title game has been won by a one point margin.

# Bensenville Trackmen Look Good at Relays

by G. A. McELROY

Bensenville's track team this coming season may lack the balance of other years, but it really has some outstanding performers. The Bisons stand a chance of losing a dual meet or two this year, but they will be just as tough as ever in the Northwest Conference meet and a definite threat for the Palatine Relays title.

Speckman, a sprinter and broad jumper, and Baumgartner, weight man and high jumper, have graduated. These boys were instrumental in giving Bensenville their second straight conference title last year. The loss of Speckman is made up to some extent at least by the presence of Audas, a transfer junior from Perry, Iowa. Audas ran the 100 yard dash in 10.3 seconds last year and seems to be a sure league winner at that distance. His ability in the 220 and broad jump, where Speckman excelled, has not been tested.

**Quartet of Returning Stars**

In addition to Audas Coach Trapp has a quartet of stars among his seven returning lettermen. Pomplum was an easy conference winner in both high and low hurdles. This third in the highs at Naperville Saturday indicates he will be one of the best in this area with outdoor practice. Jack Thomas, a versatile lad, appears to be the pole vault champ of this area. He vaulted 10 feet 9 inches at Naperville in his first attempt of the season. He is also a first class low hurdler and a better than average 440 and 880 yard runner.

**Reitz & Keifer are Juniors**

Reitz threw the discus 124 feet 6 inches in his best attempt last season as a sophomore. He was conference champ in the event, is a pretty good shot putter and not a bad sprinter at the 220 distance. Keifer, another junior, won the conference high jump and last Saturday cleared 5 feet 8 inches at Naperville without previous outdoor practice. Keifer is one of Trapp's best sprinters, but has been handicapped in the past by injuries which have confined his efforts to the high jump.

Other Bison lettermen are Newman, a miler, whose best effort has been 5:10 minutes, Steinhagen who has run the high hurdles in 17.8 seconds, and Bornack, a 440 man, who has run little below 60 seconds.

**Lack Distance Runners**

The Bisons will be unusually strong in the 880 relay, hurdles, and dashes, but will be the weakest in years in the 440, 880, and mile events. The success of Coach Trapp in dual meets will depend upon whether there are enough boys who develop sufficiently to cop a few seconds and thirds to make up for the weakness in the middle distance running.

Coach Trapp usually is a pessimist about the Bisons' chances and then comes up with another great team. At least the Bensenville prospects at this point are such as to make the rival coaches of the conference far from optimistic.

**Hidden Taxes**

A study of a typical American family's purchases made by the National Consumers Tax commission discloses that hidden taxes consumed in a year the equivalent of 578 loaves of bread, or 165 pounds of butter, or 144 dozen eggs, or 156 pounds of bacon.

**Divorcees Organize**

Because they thought a divorce was too hard to bear alone, seven divorced women of Detroit, Mich., recently organized the "Gay Divorcee club," probably the only one of its kind in the world.

York won the ninth annual Naperville indoor relays last Saturday night with a ½ point margin over LaGrange, their nearest competitor. Smith, state champ in both hurdle events did not run for Maine but still they finished fourth with 36 points.

Bensenville high indicated that they will have a powerful track team by gaining five and one half points on a third by Pomplum in the high hurdles, a tie for fourth in the high jump by Keifer who jumped five feet eight, and a tie for fourth in the pole vault by Jack Thomas who vaulted 10 feet 9 inches.

Palatine failed to score any points, finishing sixth in the two mile relay and sixth in the medley relay. Bensenville was just out of the points in the eight lap relay.

Palatine's two mile relay team was sixth at Naperville last year but ran the event in 8:59.6, this year, bettering last year's mark by six seconds. For the half mile sections of the race Langhoff was timed in 2:10.5, Trepus, 2:13.6, Cipri, 2:13.6, and Field 2:21.9. In the medley relay Cipri ran the 480 yard section in :62.1, Warder and Thieme ran the 320 yard sections in :40.1 and :40.2 respectively, and Anderson ran the 800 yards in 2:01.6. The combined time was 4:24.

In the eight lap relay the Bensenville boys made good time for their 320 yard sections of the race. Audis had :39, Thomas :38.9, Kiefer :39.8, and Pomplum :40.5.

## Hurdlers, Heinze and Briggs, and Harth, High Jumper, Score

The boys representing Arlington last Saturday in the Naperville relays fared exceedingly well considering the caliber of the competition. They wound up tenth and scored ten points in the course of the afternoon and evening's competition. Bob Briggs and Bob Heinze, the Cardinal hurdlers, accounted for most of the points. However, practically all of the boys acquitted themselves in good fashion.

Briggs and Heinze were two of the four finalists in the high hurdles Saturday night. But for a poor race by Heinze in his semi-final heat it would have been duplicated in the lows. As it was Heinze was second and Briggs fourth in the high barrier race, with Briggs third in the finals of the lows. John Harth accounted for the other point by tieing for fourth place in the high jump with a leap of 5 ft. 6 in. The winner was Cooley of Maine with a jump of 6 ft. ¾ in. for a new record.

It was necessary to go through three preliminary races in both hurdle events in order to get into the finals. Consequently both of Arlington's hurdlers were kept busy, Briggs running eight flights in all, and Heinze seven.

Arlington's Frosh-Soph relay team tied Elgin for sixth place, just out of the pay position. The four boys running were Kamps, Morici, Williams and Geudtner.

The Cardinals two mile relay team fared almost as well, winding up in seventh place, a notch below Palatine's crack distance quartet. C. Niemeyer, E. Rohlwing, W. Rohlwing and J. Maseng formed this foursome.

The medley team composed of R. Schwolow, R. Ross, Nebel and R. Niemeyer, didn't do so well. They finished further down the list but were by no means last.

The only other Arlington entry was Geudtner in the high jump. His best jump was not quite good enough to land him among the qualifiers.

The high scores piled up by the leading teams were accumulated mainly in the relays where each relay counted points 10-8-6-4-2, while the individual events scored only 5-4-3-2-1.

Arlington will enter a somewhat similar squad in the Oak Park Relays this coming Saturday night.

## "Love Thy Neighbbor" Ace Comedy Based on the Benny-Allen Feud

So Fred Allen got a good hold on Jack Benny's scalp lock and Jack Benny got a good, tight pincer grip on Fred Allen's nose—and what resulted is just about the funniest comedy of the year—Paramount's "Love Thy Neighbor," which plays Sunday, Monday and Tuesday at the Palatine Theatre.

While the film is based on the by-now historic feud between the two comedians, neverthless there is ample provision made in the story for romance, pretty girls, hit tunes, delightful dancing and other first-rate ingredients of successful comedy musicals.

Thrills, mystery and murder are the ingredients that make up the new Warner Bros. film, "The Case Of The Black Parrot" which also plays this Sunday, Monday and Tuesday. It tells the story of an international criminal.

Jackie Cooper had to throw a baseball accurately enough to knock out a fleeing criminal; he and Gene Reynolds stage a thrilling fight on a school campus, and, with a group of youngsters, trail a criminal all over a city amid thrills and laughs for "Gallant Sons," coming this Thursday, Friday, and Saturday.

Eight million dollars is the sum Earl Carroll, the beauty magnate, estimates he has spent on girl shows produced by him during the past 30 years. The impresario has turned actor for the first time in his career, making his screen debut, playing himself, in Paramount's musical comedy-melodrama, "A Night at Earl Carroll's," which also plays this Thursday, Friday and Saturday.

## Rugged Northwest Film, 'Girl from God's Country' At the Catlow Theater

The Great Northwest is again glorified in "Girl from God's Country," Republic drama which comes to the Catlow Theatre on Saturday.

Chester Morris and Jane Wyatt, who portray the romantic leads, are ideally cast in the rugged, frontier type of role in which character must be dominant. The pair are stranded in the northernmost reaches of Alaska, with nothing but illiterate eskimos and sled dogs for companions, and their relationship, which was born in spirited conflict and misunderstanding, ripens to a deep love which is translated to the screen with profound and penetrating insight.

Zane Grey's words posthumously chose the movie actor he wanted to play the hero in the film version of his latest book, it was disclosed by his son, Romer Grey.

Zane Grey specified, "Western Union" should go to the studio that could obtain Randolph Scott to play Vance Shaw, renegade scout. 20th Century-Fox placed Scott under contract before buying the book. Filmed in technicolor, "Western Union" comes to the Catlow Theatre on Sunday and Monday.

Randolph Scott is an old hand at Zane Grey stories. He was starred in 18 of them and was called by Grey a "true Westerner."

Reaching into its bottomless bag of cinematic tricks, Universal Studios brings "The Invisible Woman" to the screen at the Catlow Theatre on Tuesday.

The same company that produced the sensational horror-type films, "The Invisible Man," and "The Invisible Man Returns," now turns its trick effects to comedy in what is advanced as one of the most startling and hilarious features on record.

Virginia Bruce, John Barrymore, John Howard, Charlie Ruggles and Oscar Homolka share starring honors in the trick picture.

Double featured on Tuesday with "The Invisible Woman," is "So You Won't Talk?" starring Joe E. Brown, with Frances Robinson, Vivienne Osborne, Bernard Nedell and Tom Dugan.

## Are Sports for all Needed to Improve Medical Standards

Are we softer than a generation ago? Selective service officials are concerned over the fact that a larger percentage of men are being rejected for military service for reasons of physical unfitness than in 1917. In 1917, 35% were rejected as against 40% in 1941. Considering that in 1917, men with minor defects were accepted for limited service such as company clerks, the difference in percentage would be even higher now. While medical standards may differ somewhat, the essential fact remains that the problem of physical unfitness is causing genuine concern. A theory has been advanced that heretofore our national accent on such sports as baseball and football where a few men participate and a vast number merely watch has been misplaced and that the time is at hand to undertake a national athletic program under which body-building and body-hardening sports will predominate.

## High School Journalists To Attend University's Press Conference

Nearly 300 students representing 65 schools in seven midwestern states will arrive on Northwestern's campus next week-end, March 28 and 29, to attend the ninth annual Medill Press conference, Bob Goodwin, student director, announced this week.

Sponsored by Sigma Delta Chi, national professional journalism fraternity, and the Medill School of Journalism, the conference includes roundtables, short courses, and contests.

Principal speakers during the conference will be Fred D. Fagg, vice president of the university, and Kenneth E. Olson, dean of the Medill School of Journalism.

Nine contests Friday will keep students busy, though each school may not enter more than two students in any one contest and one student may not enter more than three contests.

Contests will be held on current events, interviewing, advertising copy, headline, and feature writing; also yearbook layout, editorial, news, and sports writing.

Short courses and round tables will take up problems of high school advisers, newspapers, yearbooks, and magazines as they are found in the high school situation.

Climax of the conference will come Saturday night at the awards banquet when contest and sweepstakes winners will be announced. Student winners of contests amass points which add to the school's total. The school with the most points is awarded a sweepstakes trophy.

"4 MOTHERS"

# Mac Says-

by GERALD A. MC ELROY

Morton won the state championship the hard way. To be paired with Centralia in the opening game of the finals at Champaign appeared to be the end of the trail for the suburban school but they displayed great ball in upsetting the favorites by one point. It was the cool steady playing of Morton that marks them as champs. They were confident but not cocky. They played smart ball all the time. They took advantage of their opponent's weak spots. They had the best balanced team in the state. To see them win both of their games at Champaign by one point did not seem to us as any sign of luck. In fact the score was no indication of their all round superiority in each of the games they won through the Elgin quarter finals and the Champaign finals.

**Centralia Had Off Night**

Yet it is our conviction that Centralia would beat Morton nine out of 10 times. The time they met was just that 10th time. Centralia shot 27 times before getting their first field goal, which came just 30 seconds before the half. In spite of this ice cold shooting they lost by only one point to the state champs. In the final game they looked better than Urbana, but still had not Fred Green, Urbana center, been lost on fouls it is likely that Morton would have lost. Morton went through the toughest lineup of tournaments to get to the state. The Glenbard regional with Proviso, York, LaGrange, Argo, and Leyden was just as tough as the highly rated Woodstock regional. Morton had one of their toughest hurdles in the whole series at Waukegan in the sectional when they beat Dundee 33-30. They really hit their stride after this game. The teams at the Elgin quarter finals were no set ups.

**Two Styles of Ball**

The state tournament saw two distinct styles of basketball. Morton and Urbana played a slower ball possession game depending upon good ball handling and passing to get the ball in a position for good shots. Centralia and Canton played the fire wagon type of fast break with long shots and shots taken on the run. These two teams played little defense in their consolation game, but gave the crowd plenty of thrills by their speed and shooting ability. The tournament proved that extremes in style of play are least successful.

**Eddleman A Real Star**

Eddleman was everything that has been said of him. We saw him on two occasions in the final quarter against Morton take a defensive rebound and dribble the whole way through the opposition to score. He is a great all round player in every respect. Centralia had the least team play of any good outfit we have seen this year. After they got the ball in the scoring zone it became a case of individual offense until the ball was lost or a basket scored. They seemed to have no set plays or system. It was just a fast break or a long shot. And Eddleman was not the only star on the team. It was a team of stars. While Eddleman was trying to break his old record of 24 points in a state tournament game and managing to tie it his team mate Klostermann was scoring 20. Neither aided the other in their scoring. When either got the ball he faked, dribbled, shot and rebounded in an individual set of offensive maneuvers.

**Green Outscores Eddleman**

Green of Urbana, who led a team to the finals that had been beaten 10 times during the season, was the real tournament scorer. In the four games of the qaurter final and final rounds the big six foot five inch center scored 86 points to outpoint the great Eddleman. The three outstanding boys of the tournament were Green of Urbana, Eddleman of Centralia and Strumill of Morton.

**Picks Three of the Four**

Before the tournament series ever started back in February, Pat Harmon of the Champaign News-Gazette said that the four big C teams were his best bets. He referred to Cicero, Centralia, Canton, and Champaign. He only missed in the case of Champaign and it was neighboring Urbana that beat Champaign to get the spot in the select quartet.

Murphy, sports editor of the Canton paper, is the only writer we know who picked Morton to win the state tournament before the finals started.

**Illinois Needs a Field House**

Along with other sport writers we attended a banquet Saturday night given by the University of Illinois athletic department at the Champaign country club. At this dinner the chief topics of conversation were the questions of a four or a 16 team state final tournament and of the possibiilties of the state university getting a field house to help solve the problem of accommodating the state tournament crowds and the expanding athletic program of the university. State universities in surrounding states, less wealthy than Illinois, have field houses where they can seat 13,000 fans at state tournamests and university athletic contests. Illinois certainly needs one even if there were no state tournament angle to be considered.

**Hold Sports Clinics**

Visiting coaches at the state tournament found their time between evening sessions well taken care of by the University. Friday afternoon Coaches Johnson and Osborne put on a track clinic with demonstrations by Illinois athletes. On Friday spring football practice kept the coaches occupied.

**A Coincidence**

Down at the Elgin quarter finals we found our seats right behind Sam England and Wade Steele, the Leyden coaches. Imagine our surprise to find our seats at Champaign right behind the same gentlemen. We wonder what the odds would be against that happening.

**Champs Beaten in Regionals**

For two years in a row the state champ has been a team that was defeated in the regional finals. Granite City lost to Wood River on the way up last year and we believe that Herrin the runner up lost to Marion. This year Morton was beaten by Proviso in the regional final by 14 points while Urbana was trimmed by little Homer. Another unusual fact is that for two years in a row the state title game has been won by a one point margin.

# Bensenville Trackmen Look Good at Relays

by G. A. McELROY

Bensenville's track team this coming season may lack the balance of other years, but it really has some outstanding performers. The Bisons stand a chance of losing a dual meet or two this year, but they will be just as tough as ever in the Northwest Conference meet and a definite threat for the Palatine Relays title.

Speckman, a sprinter and broad jumper, and Baumgartner, weight man and high jumper, have graduated. These boys were instrumental in giving Bensenville their second straight conference title last year. The loss of Speckman is made up to some extent at least by the presence of Audas, a transfer junior from Perry, Iowa. Audas ran the 100 yard dash in 10.3 seconds last year and seems to be a sure league winner at that distance. His ability in the 220 and broad jump, where Speckman excelled, has not been tested.

**Quartet of Returning Stars**

In addition to Audas Coach Trapp has a quartet of stars among his seven returning lettermen. Pomplum was an easy conference winner in both high and low hurdles. This third in the highs at Naperville Saturday indicates he will be one of the best in this area with outdoor practice. Jack Thomas, a versatile lad, appears to be the pole vault champ of this area. He vaulted 10 feet 9 inches at Naperville in his first attempt of the season. He is also a first class low hurdler and a better than average 440 and 880 yard runner.

**Reitz & Keifer are Juniors**

Reitz threw the discus 124 feet 6 inches in his best attempt last season as a sophomore. He was conference champ in the event, is a pretty good shot putter and not a bad sprinter at the 220 distance. Keifer, another junior, won the conference high jump and last Saturday cleared 5 feet 8 inches at Naperville without previous outdoor practice. Keifer is one of Trapp's best sprinters, but has been handicapped in the past by injuries which have confined his efforts to the high jump.

Other Bison lettermen are Newman, a miler, whose best effort has been 5:10 minutes, Steinhagen who has run the high hurdles in 17.8 seconds, and Bornack, a 440 man, who has run little below 60 seconds.

**Lack Distance Runners**

The Bisons will be unusually strong in the 880 relay, hurdles, and dashes, but will be the weakest in years in the 440, 880, and mile events. The success of Coach Trapp in dual meets will depend upon whether there are enough boys who develop sufficiently to cop a few seconds and thirds to make up for the weakness in the middle distance running.

Coach Trapp usually is a pessimist about the Bisons' chances and then comes up with another great team. At least the Bensenville prospects at this point are such as to make the rival coaches of the conference far from optimistic.

**Hidden Taxes**

A study of a typical American family's purchases made by the National Consumers Tax commission discloses that hidden taxes consumed in a year the equivalent of 578 loaves of bread, or 165 pounds of butter, or 144 dozen eggs, or 156 pounds of bacon.

**Divorcees Organize**

Because they thought a divorce was too hard to bear alone, seven divorced women of Detroit, Mich., recently organized the "Gay Divorcee club," probably the only one of its kind in the world.

York won the ninth annual Naperville indoor relays last Saturday night with a ½ point margin over LaGrange, their nearest competitor. Smith, state champ in both hurdle events did not run for Maine but still they finished fourth with 36 points.

Bensenville high indicated that they will have a powerful track team by gaining five and one half points on a third by Pomplum in the high hurdles, a tie for fourth in the high jump by Keifer who jumped five feet eight, and a tie for fourth in the pole vault by Jack Thomas who vaulted 10 feet 9 inches.

Palatine failed to score any points, finishing sixth in the two mile relay and sixth in the medley relay. Bensenville was just out of the points in the eight lap relay.

Palatine's two mile relay team was sixth at Naperville last year but ran the event in 8:59.6, this year, bettering last year's mark by six seconds. ## Hurdlers, Heinze and Briggs, and Harth, High Jumper, Score

The boys representing Arlington last Saturday in the Naperville relays fared exceedingly well considering the caliber of the competition. They wound up tenth and scored ten points in the course of the afternoon and evening's competition. Bob Briggs and Bob Heinze, the Cardinal hurdlers, accounted for most of the points. However, practically all of the boys acquitted themselves in good fashion.

Briggs and Heinze were two of the four finalists in the high hurdles Saturday night. But for a poor race by Heinze in his semi-final heat it would have been duplicated in the lows. As it was Heinze was second and Briggs fourth in the high barrier race, with Briggs third in the finals of the lows. John Harth accounted for the other point by tieing for fourth place in the high jump with a leap of 5 ft. 6 in. The winner was Cooley of Maine with a jump of 6 ft. ¾ in. for a new record.

It was necessary to go through three preliminary races in both hurdle events in order to get into the finals. Consequently both of Arlington's hurdlers were kept busy, Briggs running eight flights in all, and Heinze seven.

Arlington's Frosh-Soph relay team tied Elgin for sixth place, just out of the pay position. The four boys running were Kamps, Morici, Williams and Geudtner.

The Cardinals two mile relay team fared almost as well, winding up in seventh place, a notch below Palatine's crack distance quartet. C. Niemeyer, E. Rohlwing, W. Rohlwing and J. Maseng formed this foursome.

The medley team composed of R. Schwolow, R. Ross, Nebel and R. Niemeyer, didn't do so well. They finished further down the list but were by no means last.

The only other Arlington entry was Geudtner in the high jump. His best jump was not quite good enough to land him among the qualifiers.

The high scores piled up by the leading teams were accumulated mainly in the relays where each relay counted points 10-8-6-4-2, while the individual events scored only 5-4-3-2-1.

Arlington will enter a somewhat similar squad in the Oak Park Relays this coming Saturday night.

## "Love Thy Neighbbor" Ace Comedy Based on the Benny-Allen Feud

So Fred Allen got a good hold on Jack Benny's scalp lock and Jack Benny got a good, tight pincer grip on Fred Allen's nose—and what resulted is just about the funniest comedy of the year—Paramount's "Love Thy Neighbor," which plays Sunday, Monday and Tuesday at the Palatine Theatre.

While the film is based on the by-now historic feud between the two comedians, neverthless there is ample provision made in the story for romance, pretty girls, hit tunes, delightful dancing and other first-rate ingredients of successful comedy musicals.

Thrills, mystery and murder are the ingredients that make up the new Warner Bros. film, "The Case Of The Black Parrot" which also plays this Sunday, Monday and Tuesday. It tells the story of an international criminal.

Jackie Cooper had to throw a baseball accurately enough to knock out a fleeing criminal; he and Gene Reynolds stage a thrilling fight on a school campus, and, with a group of youngsters, trail a criminal all over a city amid thrills and laughs for "Gallant Sons," coming this Thursday, Friday, and Saturday.

Eight million dollars is the sum Earl Carroll, the beauty magnate, estimates he has spent on girl shows produced by him during the past 30 years. The impresario has turned actor for the first time in his career, making his screen debut, playing himself, in Paramount's musical comedy-melodrama, "A Night at Earl Carroll's," which also plays this Thursday, Friday and Saturday.

## Rugged Northwest Film, 'Girl from God's Country' At the Catlow Theater

The Great Northwest is again glorified in "Girl from God's Country," Republic drama which comes to the Catlow Theatre on Saturday.

Chester Morris and Jane Wyatt, who portray the romantic leads, are ideally cast in the rugged, frontier type of role in which character must be dominant. The pair are stranded in the northernmost reaches of Alaska, with nothing but illiterate eskimos and sled dogs for companions, and their relationship, which was born in spirited conflict and misunderstanding, ripens to a deep love which is translated to the screen with profound and penetrating insight.

Zane Grey's words posthumously chose the movie actor he wanted to play the hero in the film version of his latest book, it was disclosed by his son, Romer Grey.

Zane Grey specified, "Western Union" should go to the studio that could obtain Randolph Scott to play Vance Shaw, renegade scout. 20th Century-Fox placed Scott under contract before buying the book. Filmed in technicolor, "Western Union" comes to the Catlow Theatre on Sunday and Monday.

Randolph Scott is an old hand at Zane Grey stories. He was starred in 18 of them and was called by Grey a "true Westerner."

Reaching into its bottomless bag of cinematic tricks, Universal Studios brings "The Invisible Woman" to the screen at the Catlow Theatre on Tuesday.

The same company that produced the sensational horror-type films, "The Invisible Man," and "The Invisible Man Returns," now turns its trick effects to comedy in what is advanced as one of the most startling and hilarious features on record.

Virginia Bruce, John Barrymore, John Howard, Charlie Ruggles and Oscar Homolka share starring honors in the trick picture.

Double featured on Tuesday with "The Invisible Woman," is "So You Won't Talk?" starring Joe E. Brown, with Frances Robinson, Vivienne Osborne, Bernard Nedell and Tom Dugan.

## Are Sports for all Needed to Improve Medical Standards

Are we softer than a generation ago? Selective service officials are concerned over the fact that a larger percentage of men are being rejected for military service for reasons of physical unfitness than in 1917. In 1917, 35% were rejected as against 40% in 1941. Considering that in 1917, men with minor defects were accepted for limited service such as company clerks, the difference in percentage would be even higher now. While medical standards may differ somewhat, the essential fact remains that the problem of physical unfitness is causing genuine concern. A theory has been advanced that heretofore our national accent on such sports as baseball and football where a few men participate and a vast number merely watch has been misplaced and that the time is at hand to undertake a national athletic program under which body-building and body-hardening sports will predominate.

## High School Journalists To Attend University's Press Conference

Nearly 300 students representing 65 schools in seven midwestern states will arrive on Northwestern's campus next week-end, March 28 and 29, to attend the ninth annual Medill Press conference, Bob Goodwin, student director, announced this week.

Sponsored by Sigma Delta Chi, national professional journalism fraternity, and the Medill School of Journalism, the conference includes roundtables, short courses, and contests.

Principal speakers during the conference will be Fred D. Fagg, vice president of the university, and Kenneth E. Olson, dean of the Medill School of Journalism.

Nine contests Friday will keep students busy, though each school may not enter more than two students in any one contest and one student may not enter more than three contests.

Contests will be held on current events, interviewing, advertising copy, headline, and feature writing; also yearbook layout, editorial, news, and sports writing.

Short courses and round tables will take up problems of high school advisers, newspapers, yearbooks, and magazines as they are found in the high school situation.

Climax of the conference will come Saturday night at the awards banquet when contest and sweepstakes winners will be announced. Student winners of contests amass points which add to the school's total. The school with the most points is awarded a sweepstakes trophy.
